FOR IMMEDIATE RELEASE

US-275/N-64 Waterloo Viaduct – Temporary Lane Closures

March 5, 2018 (Omaha, Neb.) — Weather permitting, there will be temporary lane closures on northbound and southbound US-275/N-64 at the Waterloo Viaduct beginning Monday, March 12, according to the Nebraska Department of Transportation.

These temporary lane closures are necessary for the construction of crossovers to facilitate concrete pavement repairs, replacing the bridge approaches, grade beams and guardrail; constructing median barrier; removing and replacing project lighting; and installing permanent pavement striping. All lanes are scheduled to be open late fall 2018. The remainder of the project is anticipated to be completed spring 2019.

JMN Construction, LLC is the contractor on this project. Motorists are urged to drive cautiously through construction zones, along detours and selected alternate routes.
