

2018 MADD Nebraska Court Monitoring Briefing

Introduction

States can have strong laws and tough enforcement but without consistent outcomes in the court system the message that drunk driving is a serious crime may get lost. The court system is our society's mechanism for determining an individual's guilt or innocence. It also sets the parameters of an offender's punishment, restitution and rehabilitation.

Over the past two years, the number of drunk driving deaths nationwide has increased after years of steady decline. Despite a cultural shift in America since Mothers Against Drunk Driving® (MADD) was founded in 1980, drunk driving still remains the biggest killer on our nation's roadways. More than 10,800 people were killed in drunk driving crashes in 2017.

MADD believes there will come a day when there are No More Victims® of drunk driving. MADD's guiding force to achieve this goal is the Campaign to Eliminate Drunk Driving — supporting high-visibility law enforcement, advocating for ignition interlocks for all drunk driving offenders, pushing for development of advanced vehicle technology and drawing upon public support for these initiatives.

A Look at Drunk Driving in Nebraska

In 2018, 33 percent of fatal crashes were alcohol-related in Nebraska. This number is down slightly from the average of 34 percent of the previous four years (2014-2017). The number of DUI Arrests have decreased from 10,718 in 2012 to 6,827 in 2018 while the Alcohol Related Fatal Crashes and Fatalities has varied over the years.

Year	DUI Arrests	DUI Convictions	Alcohol Related Fatal Crashes	Alcohol Related Fatalities
2011	12,207	10,549	49	51
2012	10,718	9,528	81	87
2013	9,343	8,703	65	70
2014	8,617	7,576	75	78
2015	8,199	7,136	71	81
2016	7,311	6,594	73	81
2017	6,877	6,203	63	71
2018	6,827	6,210	66	77

MADD Nebraska and Highway Safety Advocates can work on reducing the number of alcohol-related motor vehicle crashes on state roadways by addressing the number of arrests and convictions for all offenses. Court monitoring is intended to enhance transparency and accountability within the criminal justice system and reduce the likelihood of repeat drunk driving offenses. Studies show that consistently placing an observer in the courtroom has a positive effect on case disposition. Standardized reporting used by court monitors contributes to an increase in information that can result

in higher conviction rates. When monitors cannot be in court, they collect data through online records in a process called data mining.

The Case for Court Monitoring

Research has shown that first-time DUI offenders have driven drunk an average of 87 times before they are arrested (Zader, Krawchuk, Moore, 1997). The primary reason drivers continue to drive drunk is because they can. Nationally, about one-third of all drivers arrested for DUI have had a previous drunk driving conviction, which is similar to Nebraska's rate. Across the country, DUI cases are often handled inconsistently, amended to a lesser charge, or simply dismissed by the justice system. MADD Nebraska advocates for swift and equitable treatment for all DUI cases.

MADD's Court Monitoring Program (CMP) was designed to ensure that DUI arrests are prosecuted, unwarranted dismissals are decreased and justice is achieved. Goals of the CMP are to:

- Compile pertinent information on how DUI court cases are handled from county to county.
- Share mutual concerns about the outcomes of criminal cases with professionals in the legal arena.
- Report information gathered by trained volunteers to relevant entities and community members to ensure the system can be maintained and improved.

To achieve these goals, MADD Nebraska utilized trained volunteers to observe court procedures and collect pertinent information in DUI cases. Types of data collected included offense type, age and gender of the offender and sanctions imposed. MADD also worked closely with law enforcement, prosecutors and vested partners to relay data collected from the court monitoring program to show trends, patterns and behaviors when it comes to drunk driving enforcement and prosecution in those counties.

County Selection

The fifteen priority counties included in the *MADD Court Monitoring Evaluation and Education Project* account for 1,414,651 residents or 74% of the Nebraska population. The fifteen counties are: Adams, Buffalo, Custer, Dodge, Douglas, Gage, Hall, Lancaster, Lincoln, Madison, Platte, Sarpy, Saunders, Washington and York. These counties were identified by the Nebraska Office of Highway Safety (NOHS) as having either a high crash rate for alcohol, speed and/or alcohol use by youth.

The target population consists of offenders arrested for DUI. It is imperative that courts take a strong look at the effectiveness of DUI adjudication and how those actions contribute to the progress in reducing impaired driving fatalities and recidivism. Residents will benefit from a court monitoring program focused on the criminal justice system and sentencing outcomes. MADD Nebraska worked closely with law enforcement, prosecutors, court personnel, and vested partners to collect data. Information will illustrate trends, patterns, and behaviors surrounding impaired driving enforcement and prosecution.

Quantitative Data Collection

Court Monitoring Program data were obtained from two sources: court trial forms, completed by MADD Nebraska staff and volunteers, and the Nebraska Trial Courts Case Search System database, hereafter called Justice. CMP volunteers included concerned community members, college students interested in volunteering and/or requiring internship hours for a class, and retired adults. Data from the court trial forms were collected from four categories: 1) case information, 2) charges, 3) sanctions/sentence and 4) comments. Examples of case information included defendant name, date of birth and name and location of court. Charges recorded included the original charge, final charge, amended, and arresting agency. Examples of sanctions/sentences imposed included jail time, fines, ignition interlock, license suspension/revocation, and probation.

Information collected by court program monitors were verified by MADD Nebraska CMP staff through records accessed from Justice. This database provided a detailed record of each DUI case presented to the court. Case information, charges, and sanctions imposed were available through the Justice system. Data obtained from the Justice database was compared to information recorded on the court trial form to assure accuracy of data collection by court program monitors.

Case files with Case Year 2018 were utilized for the data collection. Close to one hundred percent of all cases were included in the analysis if a county had 300 or fewer DUI arrests in the year of interest for analysis. If a county had more than 300 DUI arrests (i.e., Hall County) a random number of cases, for a total of close to 300 were chosen for analysis for expedited data analysis.

Data Analysis

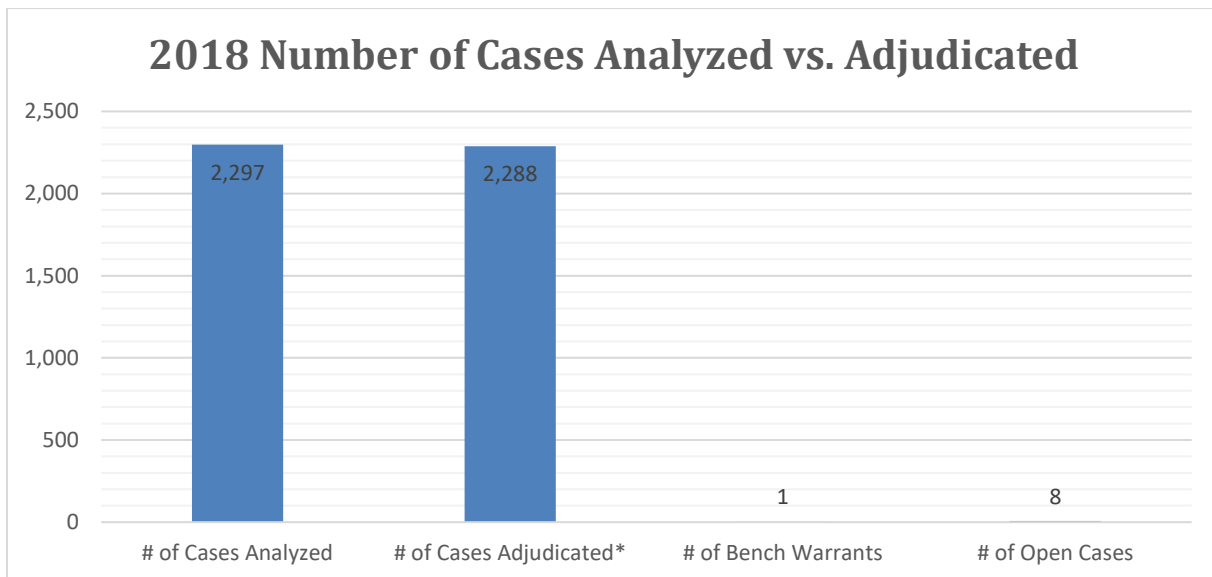

Data from closed and misdemeanor DUI cases with sanctions imposed were entered into Microsoft Excel spreadsheets for analysis. Variables of interest for this report included rulings, number and type of amended cases, length of case, offender age and gender, offense type, and sanctions imposed. Data was reported by frequencies, percentages, and averages.

Case Analysis for all 15 Counties: Adams, Buffalo, Custer, Dodge, Douglas, Gage, Hall, Lancaster, Lincoln, Madison, Platte, Sarpy, Saunders, Washington and York

Statewide there were 6,827 arrests recorded by NDOT – Office of Highway Safety in 2018. MADD analyzed 2,297 DUI cases that occurred in 2018. This represents 34% of the total cases. These cases were primarily misdemeanor charges, unless the individual was charged with a DUI 3rd .15+ or higher – those are considered felony offenses in the state of Nebraska. Of the 2,297 cases, 2,288 were closed and adjudicated by the time this report was printed. One case had a bench warrant and 8 cases were still open and in the process of going through the judicial system.

Year	2018
# of Cases Analyzed	2,297
# of Cases Adjudicated*	2,288
# of Bench Warrants	1
# of Open Cases	8

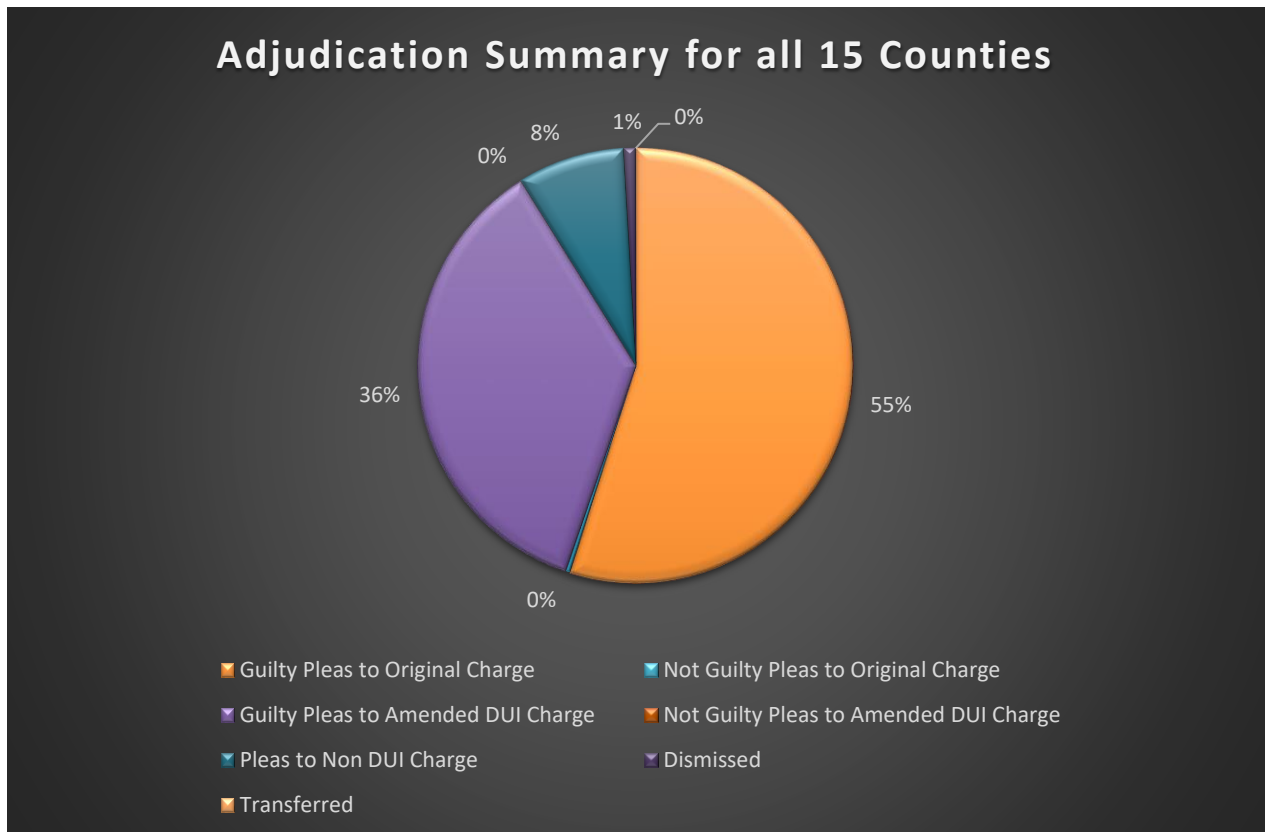

*Numbers do not include Bench Warrant or Open Cases

Adjudication Summary for all 15 Counties in 2018:

Below is a breakdown of the findings for the 2,288 closed cases. Fifty five percent of the offenders pled and were found guilty of the original DUI charge. Thirty six percent of the offenders pled and were found guilty of an amended DUI charge. MADD believes that all who are charged with DUI offenses should be prosecuted as charged, rather than be allowed to negotiate to a lesser offense, especially a non-alcohol related offense.

	# of Cases 2018
Guilty Pleas to Original Charge	1,217
Not Guilty Pleas to Original Charge	7
Guilty Pleas to Amended DUI Charge	796
Not Guilty Pleas to Amended DUI Charge	0
Pleas to Non DUI Charge	176
Dismissed	91
Transferred	1

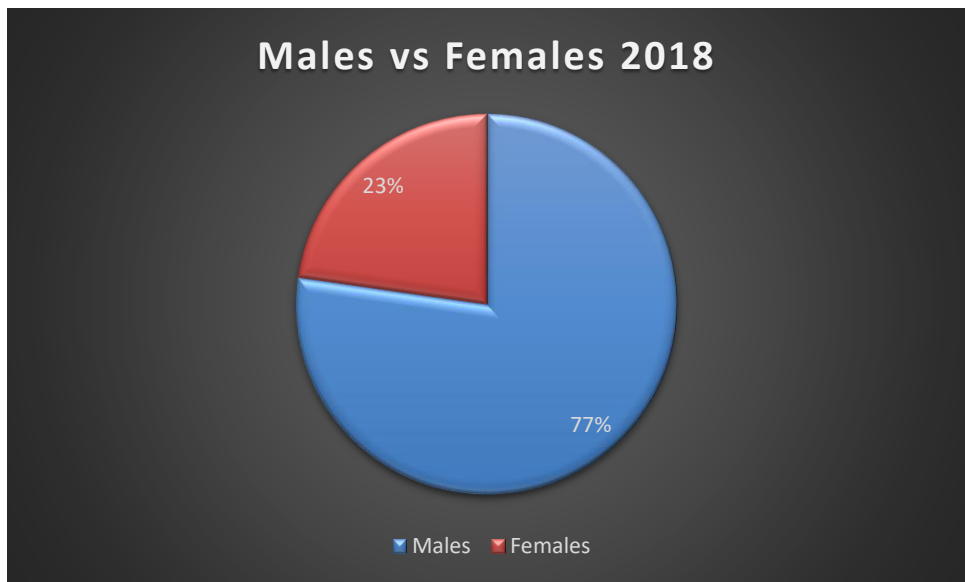

County Demographics 2018:

The table below shows a comprehensive count for all fifteen counties, including gender and age breakdowns. Total counts and the overall average age are also included.

County	Males	Females	16-20 years	21-25 years	26-39 years	40+ years	Average Age
Adams (n=94)	72	22	7	31	29	27	35

DUI Conviction Rates 2018:

The average conviction rate for all fifteen counties was 88%. Buffalo, Dodge, Douglas, Lancaster and Sarpy Counties all had a 90% conviction rate or higher. Data included in this report was retrieved from Justice. Open, dismissed, bench warrant and cases transferred to Juvenile court were excluded from analysis to capture sanctioning practices of adjudicated DUI cases only.

County	2018 Conviction Rate
Adams (n=94)	73%
Buffalo (n=128)	90%
Custer (n=27)	81%
Dodge (n=168)	92%
Douglas (n=339)	93%

n=adjudicated cases

Ignition Interlock 2018

In Nebraska, ignition interlock installation became mandatory for all those convicted of DUI in 2013. Ignition interlocks save lives by requiring convicted drunk drivers to prove they are sober before their car will start. Ignition interlocks are proven effective — on average, ignition interlocks reduce repeat drunk driving offenses by 67 percent.

County	Ignition Interlock Ordered	%
Adams (n=69)	66	96%
Buffalo (n=115)	99	86%
Custer (n=22)	21	95%
Dodge (n=154)	148	96%
Douglas (n=315)	229	73%
Gage (n=49)	12	24%
Hall (n=241)	236	98%
Lancaster (n=325)	296	91%
Lincoln (n=127)	119	94%

County Overview Breakdown:

The following pages breakdown each of the 15 counties in detail, showing Demographics, Age Range, Case Information, Adjudication Summary and Amended Case Information. DUI offense and sanction details are also included for each county. Fourteen sanctions imposed for DUI offenders for each county were recorded. The sanctions included: Fines, Fees, Jail, Probation, Revoked License, Impound License, Interlock, Victim Impact Panel, Attitudinal Dynamics, AA, Alcohol Education, Community Service, House Arrest and Immobilize Vehicle. The following data regarding sanctions imposed in each county were based on data from the Justice system only. Consequently, some of the data presented, or lack thereof, may not be a complete representation of the sanction practices in each county. There may be additional sanctions included in probation orders and MADD is not able to access those records.

Conclusion

Overall, Nebraska continues to have some of the strongest DUI laws in the nation. While inconsistencies in the types of sanctions exist, overall offenders are being taken off the streets. Numerous factors impact how law enforcement, prosecutors and judges adjudicate DUI cases. These may include city ordinances, state and federal laws, technical issues with breath testing equipment and circumstances of each individual case.

Currently, there are many strong statutes and laws in place for the adjudication of DUI cases. One concern from this report is the number of cases being amended to a lesser DUI charge or a non-DUI charge. Overall, 42% of the cases analyzed were amended. An offender who is arrested for a DUI 2nd should not be allowed to plea down to a lesser charge – the offender needs to be held accountable. Another area of interest is the high rate of offenders taking House Arrest.

Observations generated from this report include:

- All fifteen counties utilized Fines, Fees, Jail, Probation, Revoked License and Ignition Interlock consistently as sanctions for DUI offenders. Depending on the DUI offense, fines range from \$500 - \$2,000, probation ranged from 1-12 months (up to 5 years for DUI 4th .15+), and revoked license ranged from 60 days to 15 years for DUI 3rd.15+ and higher cases.
- Adams, Buffalo, Dodge, Douglas, Lancaster, Madison, Platte, Sarpy, Saunders and Washington also sanctioned some type of additional education component in the form of Victim Impact Panel, AA, Alcohol Education and/or Attitudinal Dynamics). A few counties did sentence Community Service.
- Lancaster County was the main county to utilize House Arrest as a sanction. Of the 325 cases found guilty, 232 cases (71%) of those offenders received House Arrest.
- Ignition Interlock was ordered for 89% of the adjudicated cases. There is no way for MADD to know if the offender had the device installed in their car or for how long. One reason offenders may not have had Ignition Interlock ordered as a sanction could be they are not eligible per DMV.
- Adams, Buffalo, Hall and Lincoln Counties utilized Probation to the Court primarily for DUI 1st, DUI 1st .15+ and DUI 2nd offenses.

MADD will continue to analyze DUI cases and sanctions and build on this database. Volunteers will continue to be trained to attend court, and staff will keep talking with community partners and strengthening relationships. Education is a vital component of the Court Monitoring program.
