

**Federal Funds Purchase Program
NDOR Policy on Calculating
Pool Amounts and LPA's Share**

July 23, 2014

The following is NDOR's policy for calculating pool fund amounts and each LPA's share of state cash funds in accordance with the Federal Funds Purchase Program (FFPP) agreements.

In the following text, the 0.80 figure in the equations is the discount rate per Section 4 of the FFPP agreements. Section 2 refers to Section 2 of the FFPP agreements; that is the section that decides the total pool amount. The Section 4 discount rate (currently 0.80) is included in the calculations for Section 2 in order to show the example of one final distribution number for each category. Section 3 refers to Section 3 of the FFPP agreements; that is the section that gives the methodology for distribution of the pool funds to each LPA available through MAP-21 funding levels. Although the formulas will remain constant, this policy will be updated with the current apportionment values on or about May 1st of each year.

<5,001 STP Category

Section 2. The pool amount is to be calculated as follows:

$$\text{Apportionment} \times \text{Obligation Limit Percentage} \times 0.80$$

The apportionment for the less than 5,001 population group is \$11,265,681 million. Using that number and a FFY14 OA limit of 94.9%, the pool amount would be

$$\$11,265,681 \text{ million} \times 0.949 \times 0.80 = \$8,552,905.02, \text{ million}$$

Section 3. Calculation of each LPA's share of the Section 2 amount.

The state funds are to be allocated to each LPA per the agreement, based on number of rural residents, number or rural motor vehicles registered and number of centerline miles of classified rural roads. Rural is defined as any area outside of a city with a population greater than 5,000. Please refer to Exhibit A for complete allocation list.

**Federal Funds Purchase Program
NDOR Policy on Calculating
Pool Amounts and LPA's Share**

July 23, 2014

5,001 – 200,000 STP Category

Section 2. The pool amount is to be calculated as follows:

$$\text{Apportionment} \times \text{Obligation Limit Percentage} \times 0.80$$

Assuming an apportionment for the 5,001 – 200,000 population group of \$XX million, and an OA limit of 949%, the calculation of the pool would be

$$\text{\$XX million} \times 0.949 \times 0.80 = \text{\$yy million}$$

Section 3. Calculation of each LPA's share of the Section 2 amount.

In FFY 14 no FCC funds will be purchased, as this category will use all available funds on existing Federal Aid Projects. For future years the state funds are to be allocated to each LPA per the agreement, based on the proportion of that City's total population to the population of all participating cities of the First Class in Nebraska.

**Federal Funds Purchase Program
NDOR Policy on Calculating
Pool Amounts and LPA's Share**

July 23, 2014

Bridge Funds

The basis is 10% of Annual Obligation Authority (AOA) (not including August redistribution) NDOR receives from FHWA. In the discussion below:

- SD refers to Structurally Deficient or Functionally Obsolete Deck Area.
- SD-S and SD-L refers to state and local, respectively, SD .
- QA refers to NDOR's National Bridge Inspection Standards (NBIS) quality assurance requirements for local bridges; in the example calculation \$500,000 is assumed for this activity.
- BI refers to bridge inspections (fracture critical (FC) or underwater (UW)) that NDOR coordinates on behalf of the locals, and which uses BR money.
- BRO refers to the off-system bridges requirement under MAP-21; the example assumes \$3.77 million.

The ratio $SDL / (SDS + SDL)$ is to be calculated annually based on information provided by Bridge Division.

NDOR will allocate \$2.5 million of Federal Funds or the equivalent state cash of \$2 million annually for the local major bridges program (MBP).

- In FFY14 NDOR will allocate \$2 million for use beginning in FFY15.
- In FFY15 and 16 NDOR will obligate \$2.5 million of Federal funds for use on the selected bridge in Omaha. This is a current Federal aid project.

**Federal Funds Purchase Program
NDOR Policy on Calculating
Pool Amounts and LPA's Share**

July 23, 2014

FY-2014 Federal Bridge Calculation

\$259,964,932.16 Annual OA
25,996,493.22 10% for Bridges
15,597,895.93 60% Local Share
(3,777,257.00) Less STP Bridge Off System
(198,935.00) Less Fracture Critical Bridge Inspection *with softmatch*
- Less Under Water Inspection *with softmatch*
(328,342.00) Less QA Program @ 80% *with match required*
11,293,361.93 Available for Buy Out Program
9,034,689.54 80% Buy Out Ratio
(2,000,000.00) Less Major On System Bridges Reserve
\$ 7,034,689.54 Federal Bridge Buy Out Payment to Locals

Section 2. The pool amount is to be calculated as follows:

The state funds are to be allocated to each LPA per the agreement, based on the proportion of each LPA's square feet of bridge deck area of deficient bridges by the total number of square feet of bridge deck area of deficient bridges of all participating LPA's in this category.

The numbers above are the final amounts calculated by Controller Division based on Federal funds actually received from FHWA and the most up-to-date numbers (OA limit percentage, centerline miles, bridge inspections, QA, etc.). Please refer to Exhibit B for complete allocation list.
