**Presentation Focus:** The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. Instead, NDOT suggests the interview contains information such as the following:

- Discuss your understanding of the significance of this project to the community
- Knowledge and importance of the PEL study for this project
- Experience working with discretionary grants and the important deliverables and timelines
- Discussion of experience and process for military base coordination
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
