Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discuss your experience with NDOT manuals, DOT-OIs, and other guiding/regulatory documents, and how they will impact the creation of NDOT's first complete streets policy.
- Discuss the management of project risk - I.e. what are the biggest factors to manage when developing policy and implementation strategy for Complete Streets at a DOT?
- Focus on your approach to the project that will provide NDOT with the greatest implementation success after the project is done.
