Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Extended discussion of firm's commitment and capacity to deliver this project efficiently and on-time.
- Discussion of the phasing of 6-lane inside expansion.
- Provide additional perspective on the in-road charging concept.
- Discuss your team's grant expertise and how your firm will maximize NDOT's chances for a successful application on this project.
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
