

PCC Sampling and Testing – Slump – Quick Reference Guide

Pursuant to sampling and testing requirements as prescribed by the NDOT Materials and Sampling Guide,

Project inspection personnel will create the SMGR sample record to document PCC sampling and testing using these specific parameters.

Material Code, Name, and Description:

1002PCC, Portland Cement Concrete

Test Templates:

PCF011, PCC Slump

As this test has the potential to be performed independently of other testing, the data captured on this test template is unique to slump.
