FOR IMMEDIATE RELEASE

Virtual Public Information Meeting to Begin June 23 Regarding US-81 and US-34 Highway Study

June 19, 2020 (Lincoln, Neb.) — In place of a public meeting, the Nebraska Department of Transportation (NDOT) is hosting a virtual public information meeting regarding a study evaluating a segment of U.S. Highway 81 (US-81) in York County. The virtual meeting will begin on June 23, 2020 and end on July 23, 2020.

The study corridor is approximately 7.25 miles in length along US-81 starting just south of Interstate 80 (I-80) at mile marker (MM) 57.75 (CR-9/50th Street) and extending north through the north junction of US-81 and US Highway 34 (US-34) at MM 64.00. The intent of the study is to better define transportation concerns through the US-81 and US-34 corridor and to evaluate different types of potential improvements. The study would include the evaluation of intersection alternatives, as well as evaluating access restrictions. The analysis would consider at a minimum the operation, safety, and cost effectiveness of each alternative.

The public is encouraged to participate in this virtual public information meeting to make suggestions or express transportation concerns regarding this corridor. All interested persons are invited to participate online at any time of the day through the end of the comment period. Project information, documents, and a pre-recorded presentation will be available by clicking on the “US-81 and US-34 Highway Study” link on the NDOT website: <https://dot.nebraska.gov/projects/future-projects>. The website will also provide the option to submit project comments to the NDOT team.

Comments will be collected through July 23, 2020, and if unable to use the online comment form, then please submit comments to: Sarah Soula, NDOT Public Involvement, Nebraska Department of Transportation, P.O. Box 94759, Lincoln, NE 68509-4759; sarah.soula@nebraska.gov; voice telephone (402) 479-4871; TDD telephone (402) 479-3834; fax (402) 479-3989.
