FirmName_RFQ-2107_InterviewPresentation.pdf.

Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT would like to learn more about how your team will address these topics:

- a. Role of the Project Manager (PM), how project contracts are monitored throughout the life of the project to ensure hours/budget stay within Scope.
- b. Role of the PM in regards to QA/QC, how out of scope items are handled, and shifting of funding and maintaining project schedules as they evolve.
- c. How firm integrates new Red Flag/Scoping Meeting, Project Coordinating Meeting (PCM) and the New Project Description and Purpose of Needs into

development of LPA projects? Talk about process for each of the new additions to project management.

- d. Describe your Communication Plan and how you update all the partners associated with the project. i.e. LPA, NEPA consultant, etc.
