Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discussion of the significance of the Blair South Bypass project.
- Staffing plan, firm's capacity, and how changes will be accommodated.
- Importance and understanding of Federal-aid requirements (ex. Change orders, Buy America, etc.)
- Discuss coordination between Q/A and material testing needs (ex. capacity to meet demand, sub relationships, etc.)
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
