Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Expanded discussion of the US-77/US-92 intersection including insights and solutions
- Thoughts on notable safety aspects of the corridor.
- Comments/discussion of NDOT's US-77 expansion study.
- Extended discussion of firm's commitment and capacity to deliver this project efficiently and on-time.
- Note that NDOT has previously programmed 3R projects on the existing highway, this is expected to be changed to a maintenance strategy.
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
