**3. Height**

| 3A. Site Ground Elevation (AMSL): | 2452 |
| 3B. Structure Height (AGL):       | 215  |
| 3C. Overall Height (3A. + 3B.):   | 2667 |

**4. Describe Method of Marking and / or Lighting:**

This Met tower has an FAA certified light at the top of the structure that was installed by Twin Valley Communication. There are no other significant markings on the tower. The tower is a triangular lattice structure with guy wires.

---

Wind measurement towers in Nebraska exceeding a height of 50' outside the boundaries of any incorporated city or village are required to be registered with the Nebraska Department of Aeronautics.

A separate permit is also required from the Nebraska Department of Aeronautics before erecting / building any structure exceeding 150 feet above the surface of the ground at the point of installation, unless erected under the authority of a license or permit issued by a federal agency. See Nebraska Revised Statutes §3-401 et. Seq.

Return to: Nebraska Department of Aeronautics
3431 Aviation Road Suite 150
Lincoln, NE 68524

Or via e-mail to: Soni.Stone@nebraska.gov

Notice must be filed with the Nebraska Department of Aeronautics when above registered tower is removed. Reference "Notice of Removal" Form.
