1/4 Section: _____	<u>SE</u>																																										
3. Height	<u>197 feet</u>																																										
3A. Site Ground Elevation (AMSL): _____	<u>1180 feet</u>																																										
3B. Structure Height (AGL): _____	<u>197 feet</u>																																										
3C. Overall Height (3A. + 3B.): _____	<u>1377 feet</u>																																										
4. Describe Method of Marking and / or Lighting:																																											
<p>_____ NA - the tower will be less than 200'</p> <p>_____</p>																																											

Wind measurement towers in Nebraska exceeding a height of 50' outside the boundaries of any incorporated city or village are required to be registered with the Nebraska Department of Aeronautics.

A separate permit is also required from the Nebraska Department of Aeronautics before erecting / building any structure exceeding 150 feet above the surface of the ground at the point of installation, unless erected under the authority of a license or permit issued by a federal agency. See Nebraska Revised Statutes §3-401 et. Seq.
