Always Ride Defensively
Always Obey the Laws

Nebraska Department of Transportation
Intermodal Planning Division – Bike/Ped Staff

Aug. 2017
Safety Tips

Ride as near to the right side of the roadway as practical, unless:
- you are overtaking and passing another bicycle or vehicle.
- you are preparing to make a legal left turn.
- you are traveling the same speed of the current traffic.
- you are traveling on a paved shoulder of a highway.
- it is reasonably necessary to avoid unsafe conditions.
- the lane you are in is too narrow for both vehicle and bicycle to travel side by side.
- you are on a multilane one-way, 35 mph or less, you may ride as near to the left side of roadway.

Equipment on Bicycles
- Brakes that can stop your bicycle within 25 feet at 10 mph (based on ideal conditions).
- A red reflector on the rear of your bike when riding at night (City of Lincoln requires a rear red light).
- A light on the front of your bike for night riding.
- Side reflectors on your bicycle wheels when riding at night.
- Reflectors on your pedals (or shoes) when riding at night.

Trail Safety Tips
- Ride within your ability.
- Keep right when riding. When passing another trail user, pass on the left and call out, “passing on your left.”
- Use marked and visible routes to avoid creating new trails.
- Bicycles yield to horses, hikers and runners. Hikers and runners yield to horses. When in doubt, give the other user the right-of-way.
- Be courteous and respect all users of the trail.
- Minimize your impact on the trail—pack out what you pack in!

Nebraska Bicycle Laws

The following is a summary of bicycle laws in Nebraska. This is not an inclusive listing. For more details, see Chapter 60 of the Neb. Rev.Statutes. Most, but not all, of the bicycle regulations are in §60-6,314 to 60-6,319. Local authorities may have additional regulations within their jurisdictions.

Bicyclists are required to follow the same rules of the road as motorists. A bicyclist riding on a highway generally has all the rights of a vehicle and shall be subject to all the duties applicable to the driver of a vehicle (some exceptions do exist). Parents or guardians are responsible for the actions of children under the age of 16.

Restricted Highways (Interstate and Freeway). Bicyclists are not allowed to ride on Interstate highways or freeways in Nebraska (a freeway is defined as a fully access controlled highway with “no” at-grade crossings).

State Patrol Advice. Although Nebraska has laws that require reflectors and a light on bicycles for riding at night, the Nebraska State Patrol does not recommend riding a bicycle on rural state highways at night due to the higher speeds and reduced visibility.

Ride single file when riding on the highway. Bicyclists must ride single file when on the highway. Bicyclists must signal their turn if they leave the shoulder to ride on the highway and yield the right-of-way to all other vehicles.

Three-foot Passing Law. Motorists must use due care and maintain a safe distance of no less than three feet clearance when passing a bicycle.

Crosswalk Law. A bicyclist riding a bicycle on a sidewalk or across a roadway or shoulder in a crosswalk shall have all the rights and duties applicable to a pedestrian under the same circumstances but shall yield the right-of-way to pedestrians. Nothing in this subsection relieves the bicyclist or the driver of a vehicle from the duty to exercise care.
