Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Intersection safety with a focus on highway 30 junction
- Given that NDOT has already purchased right-of-way on the eastern side of L-56G, please elaborate on the following:
 - Discussion on implementing 2+2 on this segment
 - Development of the 404 analysis, and your environmental team's participation
- Discussion of the phasing challenges in this corridor.
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
- Reminder this project will be funded with State funds, and no Federal funds will be used.
