

## **PCC Sampling and Testing – Temperature – Quick Reference Guide**

Pursuant to sampling and testing requirements as prescribed by the NDOT Materials and Sampling Guide,

**Project inspection personnel** will create the SMGR sample record to document PCC sampling and testing using these specific parameters.

**Material Code, Name, and Description:**

1002PCC, Portland Cement Concrete

**Test Templates:**

PCF012, PCC Temperature

As this test has the potential to be performed independently of other testing, the data captured on this test template is unique to temperature.
