

2020 MADD Nebraska Court Monitoring Briefing

Introduction

MADD's Court Monitoring Program enlists and trains volunteer court monitors to observe and document what happens in the courtroom during drunk driving case proceedings. MADD then tracks results and identify inconsistencies on how drunk driving cases are handled and resolved. MADD shares this information with law enforcement, judges, prosecutors, public defenders and, if necessary, the media, to help ensure appropriate actions.

Studies have shown that the mere presence of a court monitor can have a positive effect on sentencing. Trained court monitors observe proceedings, gather data, and identify trends to keep the wheels of justice turning effectively and keep families safe.

Goals

The goals of MADD's Court Monitoring Program are to enhance transparency, accountability and to promote appropriate sentencing within the criminal justice system for drunk driving cases.

This is accomplished by:

- Promoting public interest and awareness of the outcomes of criminal cases in the justice system
- Compiling information on the handling of DWI/DUI cases
- Creating relevant reports and publicize the findings

A Look at Drunk Driving in Nebraska

In 2020, 33 percent of fatal crashes were alcohol-related in Nebraska. This number is down slightly from the average of 35 percent of the previous four years (2016-2019). The number of DUI Arrests have continued to decrease every year while the Alcohol Related Fatal Crashes and Fatalities has varied over the years. Unfortunately, 2020 saw an increase in both.

Year	DUI Arrests	DUI Convictions	Alcohol Related Fatal Crashes	Alcohol Related Fatalities
2013	9,343	8,703	65	70
2014	8,617	7,576	75	78
2015	8,199	7,136	71	81
2016	7,311	6,594	73	81
2017	6,877	6,203	63	71
2018	6,827	6,210	66	77
2019	6,412	6,186	51	58
2020	5,424	5,314	72	63

County Selection

The 14 priority counties included in the MADD Nebraska Court Monitoring Briefing were identified by the Nebraska Office of Highway Safety (NOHS) as having either a high crash rate for alcohol, speed and/or alcohol use by youth. These counties include Adams, Buffalo, Dodge, Douglas, Gage, Hall, Lancaster, Lincoln, Madison, Phelps, Platte, Saline, Sarpy, and Wayne.

The target population consists of offenders arrested for DUI. It is imperative that courts take a strong look at the effectiveness of DUI adjudication and how those actions contribute to the progress in reducing impaired driving fatalities and recidivism. Residents will benefit from a court monitoring program focused on the criminal justice system and sentencing outcomes. MADD Nebraska worked closely with law enforcement, prosecutors, court personnel, and vested partners to collect data. Information will illustrate trends, patterns, and behaviors surrounding impaired driving enforcement and prosecution.

Quantitative Data Collection

Court Monitoring Program data were obtained from two sources: court trial forms, completed by MADD Nebraska staff and volunteers, and the Nebraska Trial Courts Case Search System database, hereafter called Justice. CMP volunteers included concerned community members, college students interested in volunteering and/or requiring internship hours for a class, and retired adults. Data from the court trial forms were collected from four categories: 1) case information, 2) charges, 3) sanctions/sentence and 4) comments. Examples of case information included defendant name, date of birth and name and location of court. Charges recorded included the original charge, final charge, amended, and arresting agency. Examples of sanctions/sentences imposed included jail time, fines, ignition interlock, license suspension/revocation, and probation.

Information collected by court program monitors were verified by MADD Nebraska CMP staff through records accessed from Justice. This database provided a detailed record of each DUI case presented to the court. Case information, charges, and sanctions imposed were available through the Justice system. Data obtained from the Justice database was compared to information recorded on the court trial form to assure accuracy of data collection by court program monitors.

Data Analysis

Case files with Case Year 2020 were utilized for the data collection. Data from closed and misdemeanor DUI cases with sanctions imposed were entered into Microsoft Excel spreadsheets for analysis. Variables of interest for this report included rulings, number and type of amended cases, length of case, offender age and gender, offense type, and sanctions imposed. Data was reported by frequencies, percentages, and averages.

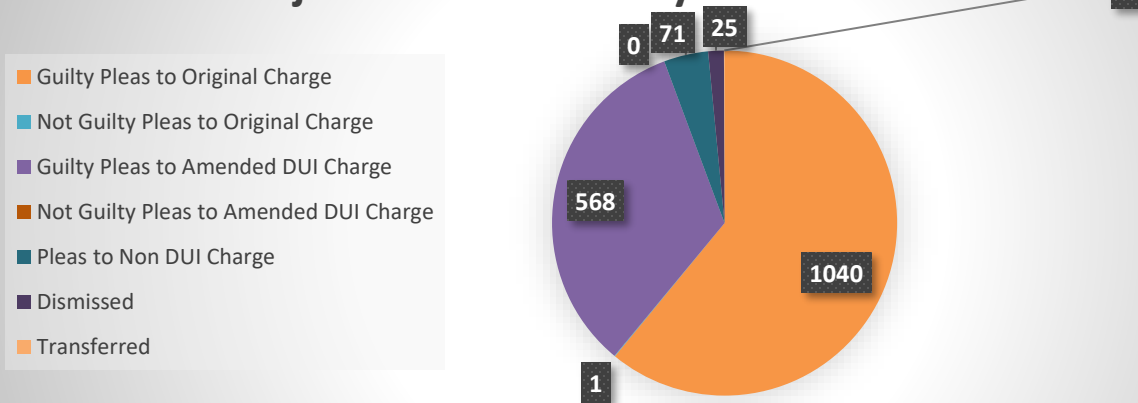

Case Analysis for all 14 Counties: Adams, Buffalo, Dodge, Douglas, Gage, Hall, Lancaster, Lincoln, Madison, Phelps, Platte, Saline, Sarpy, and Wayne.

Statewide there were 5,424 DUI arrests recorded by NDOT – Office of Highway Safety in 2020. MADD analyzed 1,711 DUI cases that were sentenced in 2020. This represents 32% of the total cases. These cases were primarily misdemeanor charges, unless the individual was charged with a DUI 3rd .15+ or higher – those are considered felony offenses in the state of Nebraska.

Adjudication Summary for the 2020 cases that were analyzed:

County	Guilty to Original Charge	Not Guilty to Original Charge	Guilty to Amended DUI	Not Guilty to Amended DUI	Plea Non DUI	Dismissed	Transferred
Adams (n=88)	40	0	41	0	6	1	0

County Overview Breakdown:

The following pages breakdown each of the 14 counties in detail, showing Demographics, Age Range, Case Information, Adjudication Summary and Amended Case Information. DUI offense and sanction details are also included for each county. Fourteen sanctions imposed for DUI offenders for each county were recorded. The sanctions included: Fines, Fees, Jail, Probation, Revoked License, Impound License, Interlock, Victim Impact Panel, Attitudinal Dynamics, AA, Alcohol Education, Community Service, House Arrest and Immobilize Vehicle. The following data regarding sanctions imposed in each county were based on data from the Justice system only. Consequently, some of the data presented, or lack thereof, may not be a complete representation of the sanction practices in each county. There may be additional sanctions included in probation orders and MADD is not able to access those records.

House Arrest		House Arrest	
Immobilize Vehicle		Immobilize Vehicle	

DUI 4th .15+

Cases found guilty: 0

Conclusion

Overall, Nebraska continues to have some of the strongest DUI laws in the nation. While inconsistencies in the types of sanctions exist, overall offenders are being taken off the streets. Numerous factors impact how law enforcement, prosecutors and judges adjudicate DUI cases. These may include city ordinances, state and federal laws, technical issues with breath testing equipment and circumstances of each individual case.

Currently, there are many strong statutes and laws in place for the adjudication of DUI cases. One concern from this report is the number of cases being amended to a lesser DUI charge or a non-DUI charge. Overall, 37% of the cases analyzed were amended. An offender who is arrested for a DUI 2nd should not be allowed to plea down to a lesser charge – the offender needs to be held accountable. Another area of interest is the high rate of offenders taking House Arrest in Lancaster County.

Observations generated from this report include:

- All fourteen counties utilized Fines, Fees, Jail, Probation, Revoked License and Ignition Interlock consistently as sanctions for DUI offenders. Depending on the DUI offense, fines range from \$500 - \$2,000, probation ranged from 1-12 months (up to 5 years for DUI 4th .15+), and revoked license ranged from 60 days to 15 years for DUI 3rd.15+ and higher cases.
- Buffalo, Lancaster, Madison, Phelps, Platte, Saline and Sarpy also sanctioned some type of additional education component in the form of Victim Impact Panel, AA, Alcohol Education and/or Attitudinal Dynamics). A few counties did sentence Community Service.
- Lancaster County was the main county to utilize House Arrest as a sanction. Of the 299 cases found guilty, 251 cases (84%) of those offenders received House Arrest.
- Ignition Interlock was ordered for 97% of the adjudicated cases. There is no way for MADD to know if the offender had the device installed in their car or for how long. One reason offenders may not have had Ignition Interlock ordered as a sanction could be they are not eligible per DMV.
- Adams, Buffalo, and Hall Counties utilized Probation to the Court primarily for DUI 1st, DUI 1st .15+ and DUI 2nd offenses.

MADD will continue to analyze DUI cases and sanctions and build on this database. Volunteers will continue to be trained to attend court, and staff will keep talking with community partners and strengthening relationships. Education is a vital component of the Court Monitoring program.
