Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- What process(es) does your firm employ to minimize missing or incomplete details on construction documents.
- When communication breaks down on a project, what can the consultant team do to reset the communication tone?
- When unexpected issues arise, what process do you follow to identify and resolve them efficiently and effectively?
- Each firm should be prepared to answer a variety of Committee questions at the conclusion of their prepared presentation.
