

Pipe Underdrain – Quick Reference Guide

Contractor will provide Manufacturer's Certificate of Compliance and a 24" sample of each size pipe to include markings to the **NDOR Central Laboratory** as defined in the specifications.

In accordance with the material requirements denoted on the SMGR Sampling Checklist, **NDOR Field personnel** will create a SMGR sample record.

Material Code, Name, and Description:

914PUA – Pipe Underdrain Aggregate

Test Templates:

AGF022001 – Pipe Underdrain Aggregate – Field

AGL015001 – Pipe Underdrain Aggregate – Central Lab

MSF002002 – Small Quantities of Non-Critical Materials

Material Code, Name, and Description:

914PUF—Pipe Underdrain Filter Fabric

Test Templates:

MSF001001 – Approved Products Verification – Field

Material Code, Name, and Description:

914PIPE – Pipe Underdrain

Test Templates:

MSF008001 – Producer/Supplier Submission – Field

** Note: Producer/Supplier Submission shall be completed when the P/S is not available for selection in SMGR. All submissions will be evaluated by the SiteManager Materials staff.

MSL004001 – Certificate of Compliance – Central Lab
