

## Aggregate Source Aggregate - Quick Reference Guide

Based on contract material requirements and evaluation of the mix design, the **Aggregate Lab Manager** will determine the need for aggregate testing. The **Aggregate Lab Manager** notify **field personnel**.

Using these parameters, **field personnel** will create a sample record and prepare an aggregate sample suitable for quality and gradation in accordance with the parameters set forth in the Materials Sampling Guide.

**Sample record creator** generates a SiteManager sample record to conform to these guidelines.

### **Basic Sample Data tab**

#### Material Codes:

Please refer to contract specification for the defined aggregates.

### **Contract tab**

Link only those contract items associated with this sample record.

### **Tests tab**

Following the prompts, the **sample record creator** will attach the corresponding lab template.

The **Aggregate Lab Manager** will evaluate the materials and the results provided to the **project manager**.
