Executive Summary

Under the direction and contribution of the statewide Impaired Driving Task Force (IDTF), the purpose of the Impaired Driving Strategic Plan (IDSP) is to provide a comprehensive strategy for preventing and reducing impaired driving. The Plan provides data on the impaired driving problem in Nebraska, documents ongoing initiatives to address various aspects of the problem, and discusses potential new strategies. This Plan is provided to the National Highway Traffic Safety Administration (NHTSA) in response to the grant requirements of Title 23, Section 405(d).

About the Impaired Driving Task Force

The Nebraska Department of Transportation Highway Safety Office (NDOT-HSO) under the authority of the designated Governor's Highway Safety Representative, established the Impaired Driving Task Force (IDTF). The Charter for the IDTF, which outlines the membership, duties, administration, and duration, is included in the Appendix.

The NDOT-HSO will manage the IDTF as a priority program. The strategies and targets developed by the IDTF will be tracked for progress along with all impaired driving projects by the NDOT-HSO.

The IDTF was initially convened in April 2017 to discuss the impaired driving issues in the State, the challenges that need to be addressed, ongoing and planned initiatives, and potential new strategies for further consideration. The Task Force represents many agencies across all geographic areas of the State including law enforcement, driver licensing, treatment, highway safety, research and advocacy and non-profit groups whose missions include addressing impaired driving. The membership and their affiliations are also included in the Appendix.

Mission

The mission of the Impaired Driving Strategic Plan is to reduce and prevent impaired driving fatalities and serious injury crashes.

Impaired Driving Strategic Plan Priorities

- Identify ways to improve programs aimed at education of population about dangers of impaired driving and aimed at prevention of impaired driving.
- Allocate resources (funding and staffing) in support of impaired driving programs.
- Promote effective policies and best practices.
- Review current laws, regulations, and enforcement (and driver licensing control).
- Review adjudication processes and make suggestions.
- Review current treatment/rehabilitation strategies and make suggestions.
- Regain and maintain over the long-term a low-range alcohol-impaired classification by continuing to reduce impaired driving fatalities.

Targets

- Reduce alcohol-impaired fatal, A and B crashes by 6.3 percent from 585 (2012-2016 moving average) to 548 by December 31, 2019.
- Reduce alcohol-impaired driving fatality rate per 100 million VMT by 3 points from .31 (2014 - 2016 FARS total) to .28 by December 31, 2019.

Long Range Target

- Reduce alcohol-impaired driving fatality rate per 100 million VMT by 7 points from .33 (2012 - 2014 FARS total) to .26 by December 31, 2020.

*Targets are based on a 3-year average linear trend line.

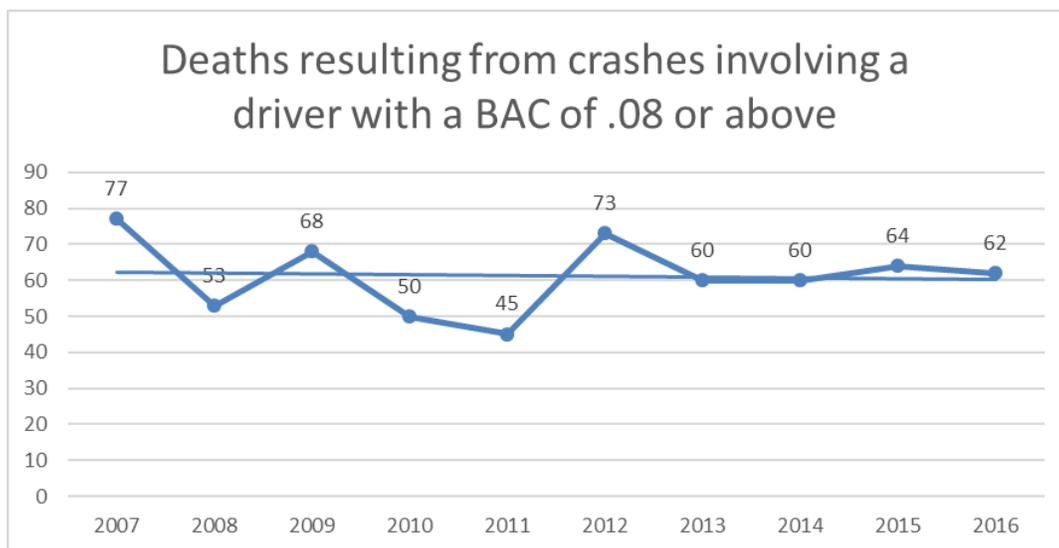

Meeting Schedule

The proposed meeting schedule of the Task Force during 2018/2019 will be as follows:

August 22, 2018
 November 28, 2018
 February 27, 2019
 May 22, 2019
 August 28, 2019

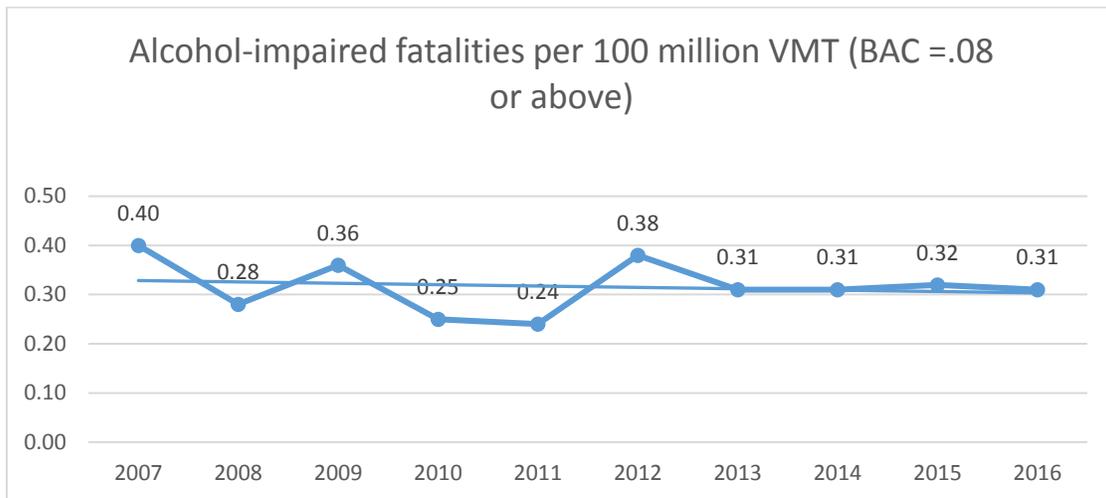

Program Data

Nebraska has made some progress during the last decade in reducing alcohol-impaired driving fatalities. During 2014, 60 persons were killed in crashes in Nebraska involving a driver with a BAC of .08 or above. This is 19% lower than 74 fatalities in 2005. Alcohol-impaired fatalities have fluctuated over that last decade, reaching a high of 77 in 2007 and a low of 45 in 2011. Each year approximately 34% of all traffic fatalities in Nebraska involve an alcohol-impaired driver.

Source: FARS 2006 - 2016

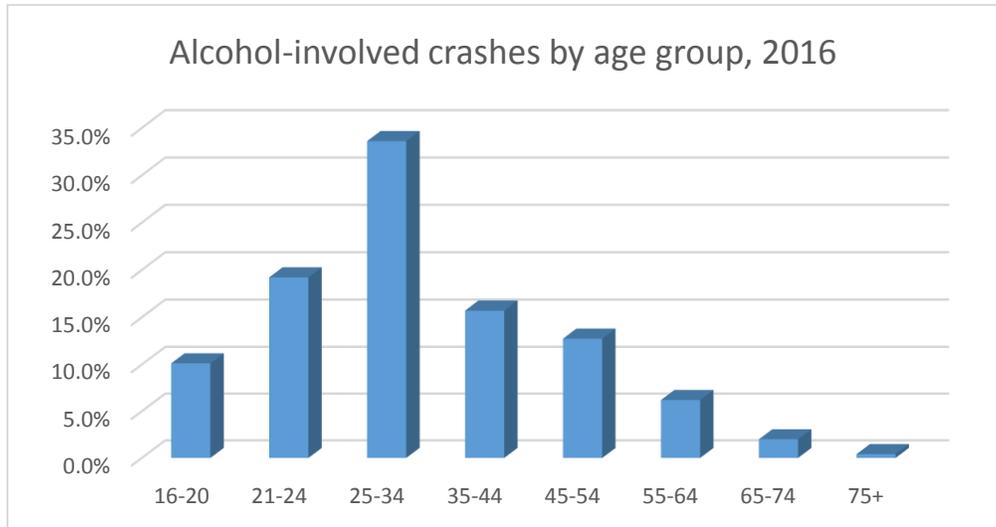

Even though the number of alcohol-impaired driving fatalities has decreased in the past decade, there has been a gradual increase in fatalities per vehicle mile traveled (VMT) in 2013 through 2015. In 2015, there were .32 alcohol-impaired driving fatalities per 100 million VMT, an increase of 28% since 2010.

Source: FARS 2007 - 2016

Alcohol is more often involved in fatal crashes, 73 out of 194 in 2016 (38%) than in all injury crashes at 1,708 out of 34,890 in 2016 (5%). Among drivers in all injury crashes in Nebraska during 2016, 1,587 of 57,961 had been drinking (2.7%). Alcohol is more common with male drivers, 1,609 (68%) versus female drivers, 730 (31%) in all alcohol involved injury crashes. More alcohol involved injury crashes are urban, 1,217 (71%) than rural, 491 (29%).

Alcohol involvement in crashes varies substantially by the age of the driver. As shown below, alcohol involvement is highest in crashes among drivers between 21 – 34 years of age.

Source: NDOT - Standard Summary of Nebraska Motor Vehicle Traffic Accidents 2016

The following table shows the 23 counties in Nebraska with the highest number of alcohol-impaired fatalities, A and B injuries during 2014 through 2016. These numbers coincide with the above information that the majority of the alcohol-impaired fatalities are in the urban areas. The IDTF will focus on these most at-risk counties for impaired driving fatalities and serious injuries.

Alcohol-Impaired Fatalities, A and B Injuries 2014-2016									
County	Fatal, A & B Injuries	% of total FAB injuries alcohol-involved fatalities	Injuries per capita	2015 DUI Convictions	County	Fatal, A & B Injuries	% of total FAB injuries alcohol-involved fatalities	Injuries per capita	2015 DUI Convictions

Source: NDOR - Standard Summary of Nebraska Motor Vehicle Traffic Accidents 2014-2016

Program Evaluation

As noted in NHTSA's *Countermeasures that Work*, one of the most important actions a state can take to reduce alcohol-impaired driving is conduct a thorough review of its DWI system. Alcohol-impaired driving laws evolve over time and are often extremely complex. Moreover, the various components of the DWI system are closely interrelated, so policies and practices in one part of the system can have unintended consequences elsewhere.

The IDTF will review the *Countermeasures That Work* annually to ensure we are implementing the most important actions that will help reduce the impaired fatal, A and B injury crashes in Nebraska. The task force will continue to update the IDSP annually to ensure the DWI system remains current and most effective.

Prevention and Education Plan

The Impaired Driving Task Force strongly believes that prevention and education is a critical component of an effective IDSP. The Prevention and Education subcommittee of the Task Force considered a number of strategies to reduce alcohol-impaired driving and address underage drinking by developing a multi-faceted approach to reach the highest number of target individuals.

Law enforcement community outreach

Law enforcement agencies will conduct mock DUI tests with the use of the Fatal Vision Goggles at high school and college sporting events. These events aid in increasing awareness of the harmful effects of alcohol on a driver's ability to safely operate a vehicle.

These events will be conducted by law enforcement agencies, with a special focus on the Priority Counties. The planned activity is often captured for social media outreach and education, reaching the young driver population.

Drugged Driving Summit

The NDOT-HSO, IDTF members and the highway safety advocates will host a Drugged Driving Summit to provide attendees (traffic safety professionals, attorneys, judges, elected officials, law enforcement, probation, and health professionals) with the current research, emerging trends in the field of DUI/DUID enforcement, national drugged driving trends with a focus on Colorado (border state) and the prescription drug culture.

The objectives of the summit are:

- raise the awareness of the growing involvement of drugs, in addition to and other than alcohol, in vehicle crashes that result in injuries and fatalities,
- understand what factors are contributing to the increase,

- recognize the effects of drugs and driving impairment,
- discuss the emerging trends and research, and
- identify and propose solutions to the problem.

The NDOT-HSO plans to carry out a Drugged Driving Summit.

Nebraska Collegiate Consortium to Reduce High-Risk Drinking

Funding is provided to further the development of the Nebraska Collegiate Consortium (NCC) to Reduce High Risk Drinking. The funding will support initiatives that address; (1) the Nebraska Collegiate Consortium continued work to provide technical support, to the 27 member institutions of higher education, for planning, developing, and implementing evidence based individual and environmental interventions to reduce high-risk drinking, drinking and driving and drunk driving, (2) expand the use and implementation of evidence based best practices, (3) skill building workshops for members and prevention specialists, and (4) receive continued data analysis support. NCC has a web-based program with a customized brief intervention available to all participating colleges and universities in the state.

Nebraska Highway Safety Conference

The Nebraska Highway Safety Conference was hosted by the Nebraska Interagency Safety Committee in March of 2017. The 2017 - 2021 Nebraska Strategic Highway Safety Plan was presented and discussed. Several speakers provided the latest information on traffic safety issues including impaired driving, occupant restraint use, young drivers, local roadway safety strategies, and the Naturalistic Driving Study results. The NDOT-HSO plans to continue to work with the Nebraska Interagency Safety Committee to host additional conferences in the future.

Project Extra Mile

The objective of this project is to prevent underage, drinking and driving and binge drinking through environmental prevention strategies, ultimately addressing community policies, practices and norms. PEM provides information on the problems associated with underage drinking and evidence-based strategies for preventing the harms associated with it.

PEM monitors the administrative and regulatory process around liquor licensing to ensure that the Nebraska Liquor Control Act is being utilized to protect the public health and safety of communities and families.

Enforcement/Deterrence Plan

The Plan is using evidence-based traffic safety enforcement strategies to address the problem areas described in the Background section – and to meet the state targets for 2018 and 2019 – NDOT-HSO, law enforcement, and other partners will focus on strategies that have been proven effective in reducing motor vehicle crashes, injuries, and fatalities.

The IDTF is committed to strong, high visibility enforcement of our State’s laws, supported by an intensive public information and education media campaign. The FY2018 and FY2019 statewide enforcement plans includes each of the elements described below.

High-Visibility Enforcements

Law enforcement agencies throughout the state, including the Nebraska State Patrol (NSP), perform high-visibility enforcement checkpoints during the mobilizations, major holidays, sporting events and popular community events across the state.

Enforcement of Underage Drinking Laws

Underage alcohol compliance check enforcement operations will be conducted throughout the state by local law enforcement agencies and the NSP to ensure that liquor license establishments do not sell or serve alcohol to minors.

Other planned activities include:

- Large underage party patrol, identification, and dispersal training,
- Source investigation,
- Retail liquor license training,
- Should Taps,
- High Visibility enforcement.

NDOT-HSO will provide funding to carry out annual training, or attend annual training, for underage drinking enforcement and prevention initiatives.

Binge Drinking Prevention Initiatives

In partnership with the Nebraska Department of Health and Human Services (DHHS), the NDOT-HSO has been periodically conducting a Nebraska Young Adult (ages 19 - 25) Alcohol Opinion Survey to determine alcohol consumption and impaired driving behavior. This survey provides valuable data to be able to identify problem behavior, identify effective prevention strategies, and to measure the impact of countermeasures used.

Traffic Safety Resource Prosecutor

The Traffic Safety Resource Prosecutor (TRSP) is available to assist city and county attorneys with prosecution of impaired driving and motor vehicle homicide cases. The assistance may range from providing technical assistance on pre-trial motions, depositions, pre-trial evidentiary hearings, Daubert hearings or the TSRP may and has been the lead prosecutor for these types of cases. The TSRP acts as an advisor to law enforcement officers, provides training at the Nebraska Law Enforcement Training Center to all new recruits, works with law enforcement to promote a heightened awareness of victim-related issues and conducts regional training for Nebraska's County Attorneys. The TSRP maintains and updates the "Nebraska Manual for Driving Under the Influence Prosecution" which is provided to all Nebraska prosecutors. The NDOT – HSO provides funding for 100% of the personal services for the TSRP and additional funding for specific training opportunities.

Alcohol Equipment Support

NDOT-HSO provides funding to assist local law enforcement agencies in obtaining supplies (mouthpieces, dry gas, regulators, etc.) and completing repairs for preliminary and evidentiary alcohol testing equipment. Funding is also provided for in-car cameras to assist law enforcement in obtaining the evidence necessary for impaired driving-related convictions.

Law Enforcement Training

The NDOT-HSO is dedicated to providing training to Nebraska law enforcement officers in detecting and apprehending impaired drivers on Nebraska roadways. To support and maximize the DUI law enforcement efforts all Nebraska law enforcement officers going through basic training in Nebraska are required to be trained in Standardized Field Sobriety Testing (SFST). The NDOT-HSO directly supports all SFST training conducted at the Nebraska Law Enforcement Training Center (NLETC) and sponsors SFST Instructor Development Courses when necessary. Annually, approximately 150 law enforcement officers receive SFST training at NLETC. SFST training is also provided through the Nebraska State Patrol, Lincoln Police Department and the Omaha Police Department independent training academies. The SFST training is critical to optimize the removal of impaired drivers from Nebraska roadways.

In addition to the SFST training, the NDOT-HSO coordinates the Drug Evaluation and Classification Program (DECP) and the training for Drug Recognition Experts (DRE). In many instances drivers are pulled over for driving infractions that mirror alcohol impairment and have low or no breath alcohol content. DREs are trained to conduct a 12-step evaluation that assists in determining the category or

categories of drugs that may cause impairment in a drugged driver. Drugged driving is prevalent and underreported.

The NDOT-HSO also provides Advanced Roadside Impaired Driving Enforcement (ARIDE) training. The ARIDE training provides experienced DWI officers with additional training to detect drug impaired drivers and contact a DRE for a DRE evaluation to be conducted.

Alcohol Selective Overtime

The NDOT-HSO will make direct contact with law enforcement agencies in the counties overrepresented in alcohol impaired fatal and serious injury crashes and identified in Nebraska's Performance-Based Strategic Traffic Safety Plan as a priority counties. All officers working grant funded alcohol selective overtime enforcement must be certified in Standardized Field Sobriety Testing (SFST). These law enforcement agencies will be solicited to participate in selective alcohol overtime enforcement efforts during the time of day, day of week and locations as identified by crash data. Due to the good working relationship between the NDOT-HSO and state and local law enforcement, participation in the selective overtime enforcement activities is effective. In addition, these same agencies will be solicited to participate in selective alcohol overtime enforcement during the following time frames known for high alcohol usage: Super Bowl Sunday, St. Patrick's Day, Independence Day and Halloween. Nebraska's youth alcohol-related fatal and serious injury crashes will also be addressed through selective youth-alcohol overtime enforcement. Peak enforcement efforts will focus on high alcohol usages time frames, which will include graduation, proms, homecoming and Cinco De Mayo.

Statewide selective alcohol overtime enforcement will be conducted during the national events for the "Drive Sober or Get Pulled Over Mobilization" December 14 - January 1, 2018 and the "Impaired Driving Crackdown Mobilization" August 16 – September 2, 2019. All selective alcohol overtime enforcement efforts will be required to conduct a pre- and post- media event or activity to follow the best practices examples of advising the community of their upcoming activities, conducting the enforcement activity and then reporting the results of the enforcement activity. During all of the selective alcohol overtime enforcement efforts a combination of sobriety checkpoints, saturation patrols and enforcement zones will be utilized.

It is anticipated that an estimated 20,000+ additional overtime enforcement hours will be generated from the above outlined enforcement efforts.

Laws

The Nebraska IDTF is committed to strong, high visibility enforcement of our State's laws. The statewide enforcement plan includes enforcing the following Nebraska State Statutes to the fullest extent:

- 60-498.01 to 60-498.04 - Administrative License Revocation
- 60-6,196 - Driving under influence of alcoholic liquor or drug; penalties.
- 60-6,196.01 - Driving under influence of alcoholic liquor or drug; additional penalty.
- 60-6,197 - Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; when test administered; refusal; advisement; effect; violation; penalty.
- 60-6,197.01 - Driving while license has been revoked; driving under influence of alcoholic liquor or drug; second and subsequent violations; restrictions on motor vehicles; additional restrictions authorized.
- 60-6,197.02 - Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; terms, defined; prior convictions; use; sentencing provisions; when applicable.
- 60-6,197.03 - Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; penalties.
- 60-6,197.04 - Driving under influence of alcoholic liquor or drugs; preliminary breath test; refusal; penalty.
- 60-6,197.05 - Driving under influence of alcoholic liquor or drugs; implied consent to chemical test; revocation; effect.
- 60-6,197.06 - Operating motor vehicle during revocation period; penalties.
- 60-6,197.07 - Driving under influence of alcoholic liquor or drugs; implied consent to submit to chemical test; city or village ordinances; authorized.
- 60-6,197.08 - Driving under influence of alcoholic liquor or drugs; presentence evaluation.
- 60-6,197.09 - Driving under influence of alcoholic liquor or drugs; not eligible for probation or suspended sentence.
- 60-6,197.10 - Driving under influence of alcohol or drugs; public education campaign; Department of Motor Vehicles; duties.
- 60-6,198 - Driving under influence of alcoholic liquor or drugs; serious bodily injury; violation; penalty.
- 60-6,199 - Driving under influence of alcoholic liquor or drugs; test; additional test; refusal to permit; effect; results of test; available upon request.
- 60-6,200 - Driving under influence of alcoholic liquor or drugs; chemical test; consent of person incapable of refusal not withdrawn.
- 60-6,201 - Driving under influence of alcoholic liquor or drugs; chemical test; violation of statute or ordinance; results; competent evidence; permit; fee.

- 60-6,202 - Driving under influence of alcoholic liquor or drugs; blood test; withdrawing requirements; damages; liability; when.
- 60-6,203 - Driving under influence of alcoholic liquor or drug; violation of city or village ordinance; fee for test; court costs.
- 60-6,204 - Driving under influence of alcoholic liquor or drugs; test without preliminary breath test; when; qualified personnel.
- 60-6,210 - Blood sample; results of chemical test; admissible in criminal prosecution; disclosure required.
- 60-6,211 - Lifetime revocation of motor vehicle operator's license; reduction; procedure.
- 60-6,211.01 - Person under twenty-one years of age; prohibited acts.
- 60-6,211.02 - Implied consent to submit to chemical test; when test administered; refusal; penalty.
- 60-6,211.05 - Ignition interlock device; continuous alcohol monitoring device and abstention from alcohol use; orders authorized; prohibited acts; violation; penalty; costs; Department of Motor Vehicles Ignition Interlock Fund; created; use; investment; prohibited acts relating to tampering with device; hearing.
- 60-6,211.08 - Open alcoholic beverage container; consumption of alcoholic beverages; prohibited acts; applicability of section to certain passengers of limousine or bus.
- 60-6,211.11 - Prohibited acts related to ignition interlock device; violation; penalty

The above referenced laws include, but are not limited to, driving while impaired laws for drugs and alcohol, .08 BAC “per se” laws, driving with high BAC (.15 BAC or greater) with enhanced sanctions, zero tolerance for underage drivers (.02 BAC or greater), increased sanctions for repeat offenders and open container laws.

Adjudication Plan

The State is dedicated to the continued prosecution of impaired drivers. This section discusses Nebraska’s efforts in the adjudication and sanctioning of DWI offenders.

Mothers Against Drunk Driving (MADD)

The Nebraska MADD organization conducts a court monitoring program that focuses on impaired driving issues across the state. The project will educate and train local volunteers to collect data, provide written documentation and observe courtroom activity. This will provide judicial accountability and an avenue to enhance relationships between law enforcement, prosecutors, community coalitions and community members.

MADD Nebraska supports impaired driving victims and survivors at no cost. Victim Advocates reach out and respond to those impacted and are available to those dealing with aftermath of an impaired driving crash.

Felony Motor Vehicle Prosecution Unit

Douglas County represented approximately 33 percent of all alcohol-related fatal, A and B injury crashes in 2016. Alcohol continues to play a significant factor in driving offenses in Douglas County. The NDOT-HSO provides funding to the Douglas County Attorney's Office to carry out the FMVPU where these specialized prosecutors prosecute felony cases and refer offenders, as appropriate, to the 24/7 Sobriety Program. The FMVPU maintains a 92 percent conviction rate (three year average 2014-2016). The FMVPU also provides ongoing training to law enforcement, meets with non-profits and community groups to address felony motor vehicle relate issues (i.e., court monitoring, immigration and support for 24/7 in Douglas County).

Administrative License Revocation

In Nebraska, the Department of Motor Vehicles (DMV) administer the Administrative License Revocation (ALR) program where law enforcement can revoke an operator's licenses and/or operating privileges immediately upon a DUI arrest. Drivers, who are eligible, may receive a temporary license for 15 days.

Drivers who refuse the test will be revoked for a one (1) year time period. Drivers who fail the test will be revoked for 180 days - for first offense, or for one (1) year for any subsequent offense within a 15 year time period.

Nebraska has DUI laws that allow offenders to waive their right to an Administrative License Revocation (ALR) hearing and apply for an Ignition Interlock Permit (IIP) instead. To be eligible for the permit, you must be a Nebraska resident, must be at least 18 years old and have been issued a license. The court would order a driver to install an ignition interlock device of a type approved by the DMV for 180 days up to 15 years as a condition of their conviction for an alcohol violation. Permit allows holder to drive a vehicle equipped with an ignition interlock device from home to work, school, a substance abuse treatment program, required visits with parole/probation officer, for continuing health care of holder/person dependent on holder or ignition interlock service facility and return. Permit is not valid for the operation of a commercial motor vehicle.

The Nebraska Department of Motor Vehicles provides Law Enforcement training at the Nebraska Law Enforcement Training Center (NLETC).

DWI Court

Scottsbluff County has the only DWI court within Nebraska which targets DWI offenders with a post adjudicatory alcohol intensive supervision treatment program for eligible offenders. The purpose of the program is to reduce offender recidivism by fostering a comprehensive and coordinated court response composed of early intervention, appropriate treatment, intensive supervision, and consistent judicial oversight.

Judicial Education/Training

The NDOT-HSO annually makes funding available to the state Court Administrator's Office for judicial education opportunities related to impaired driving through the judicial educator.

Post-Conviction and Treatment Plan

Nebraska is aware of the problems of substance abuse and its relationship to impaired driving, and is dedicated to the development and implementation of treatment and rehabilitation programs to address the problems.

24/7 Sobriety Program

Grant funding is provided to support a sobriety community-based pilot program to reduce the number of DUI arrests in Douglas County. This program increases the accountability on the part of the participants through the use of immediate sanctions as a condition of a bond and twice daily Blood Alcohol Content (BAC) tests. The Douglas County Department of Corrections monitors and reports participants' compliance for abstention from use of alcohol for those participants who are approved to participate in accordance with court orders.

Douglas County is the highest population of any of the 93 counties in Nebraska at 550,064 residents or 29% of the total statewide population. In 2015, there were 1,473 fatal, A and B (FAB) crashes in Douglas County or 30% of the total FAB crashes for the State.

The Bridge Behavioral Health

The Bridge Behavioral Health is a comprehensive nationally-accredited behavioral health treatment center specializing in treating alcohol and drug addictions and the mental health issues that often accompany addiction. The Bridge Behavioral Health offers a continuum of treatment and support options including medically-supervised detoxification, residential and outpatient treatment and a variety of recovery support services.

Media and Outreach Plan

The IDTF will follow the NDOT-HSO media plan that has been proven effective in the past. IDTF will utilize the FY19 Communication Campaign for this program area and the planned activities include, *Buzzed Driving is Drunk Driving, Drive Sober or Get Pulled Over and You Drink and Drive. You Lose*. These campaigns will be carried out using an extensive combination of electronic, print and non-traditional media methods including but not limited to: earned, paid and social media reaching across the state. The target audience will be the high-risk group, primarily males ages 18-34.

A strong focus on prevention and enforcement messaging will be utilized by IDTF. IDTF will work with NDOT-HSO and utilize sports marketing opportunities (baseball, football, basketball and hockey) to carryout messaging and promotion in target communities and statewide. Through partnerships developed with the IDTF, the NDOT-HSO will work with grantees, traffic safety partners, and IDTF members to carryout alcohol specific messaging in their news notes, new letters and social media platforms to increase education and awareness regarding DUI/DUID related stories, trends and research. IDTF, through NDOT-HSO, will provide mini-grant funding to partners (MADD, SADD, law enforcement, local health districts, and DHHS, Injury Prevention) to reduce the incidence of alcohol-related motor vehicle crashes in target counties.

Additional resources, for the IDTF, for social media outreach include Drive Smart Nebraska online DUI/DUID toolkits, the local health districts, private and public partners, and concerned community members.

In addition to all grantees, local agencies, and organizations, the NDOT-HSO will continue to utilize the Governor's Office, DHHS, DMV, NSP and other State agencies to assist with kick-off promotional efforts to draw attention to the national and Nebraska traffic safety mobilizations/initiatives.

The NDOT-HSO issues local news releases regarding the grant awarded special equipment for law enforcement agencies. All law enforcement operation grants require, as a condition of the grant, that the grant recipient agency must hold a local news conference and/or issue a news release regarding the grant award and the related grant activity prior to the enforcement activity. In addition, they are required to issue a news release reporting the results of that specific enforcement operation.

By reputation, the NDOT-HSO is and will continue to be the primary traffic safety news media resource for the state. The NDOT-HSO is recognized as the best source for impaired driving-related data, information, and to be able to direct media representatives to other additional sources.

Budget

The Highway Safety Office will fund projects through a combination of federal Section 402 (State Highway Safety Program Grant) and Section 405[d] (Impaired Driving Countermeasure Grant), State, and other local funding sources.

Plan Approval

The Impaired Driving Task Force met on April 26, 2017 to discuss impaired driving issues in the State and to develop this Plan. The membership subsequently approved the final version of the Plan on May 8, 2017. The plan was updated on June 4, 2018.

Nebraska's Impaired Driving Task Force Charter

- Section 1: The Nebraska's Impaired Driving Task Force (NIDTF) was established March 30, 2017, under the authority the Nebraska Governor's officially designated Governor's Highway Safety Representative (GR) and direction of the Nebraska Department of Transportation Highway Safety Office (NDOT –HSO).
- Section 2: The NIDTF has been established as an ad hoc group of key multidisciplinary highway safety enforcement, business, health care, media, education, adjudication, and other highway safety advocates.
- Section 3: The NIDTF will approve, monitor, and evaluate the progress of an Impaired Driving Strategic Plan (IDSP). The IDSP contains specific annual and long term goals and objectives. The NIDTF will consider, coordinate, and represent to outside organizations, the views of the Nebraska organizations involved in impaired driving prevention.
- Section 4: The NDOT-HSO Administrator has been designated by the GR as the official NIDTF Coordinator. The NDOT-HSO Administrator will assign an impaired driving project manager to plan, organize, and facilitate the NIDTF meetings. The NIDTF activity will be funded by the NDOT-HSO.
- Section 5: NIDTF key stakeholder representatives are from the Nebraska Departments of: Transportation; Health & Human Services; and Motor Vehicles, plus the Court Administrator, the State Patrol, the Crime Commission, Prosecution and Adjudication. Other key members include representatives from local law enforcement agencies, the Attorney General's Office, and Nebraska institutions of higher education.
- Section 6: The identified key Stakeholder member representatives have agreed to biannually submit signed documents confirming their continued support and commitment to participate on the NIDTF.
- Section 7: The NIDTF will hold meetings at least four times annually. Meetings will include reports of: prevention programs, law enforcement, criminal justice, publicity and communication, current program evaluation and strategic planning activity.

Governor's Highway Safety Representative
Director, Nebraska Department of Roads
