

Hydrated Lime - Quick Reference Guide

In accordance with contract sampling and testing requirements for hydrated lime, the **sample record creator** creates a sample record using these unique parameters:

Basic Sample Data tab

Material Code: **300HL, Hydrated Lime - LIMS Managed Material**

P/S Name: Choose from the search window display for the approved PS

Product Name: **Hydrated Lime**

Contract tab

Link only those contract items associated with this sample record.

Other

Destination Lab: NDOT Central Lab

Tests tab

Assign Sample Tests:

First sample of the project will document the mix design, select CHL050, Hydrated Lime for Soil Stab Chem Analysis (Initial) – Lab

Subsequent samples, select CHL051, Hydrated Lime for Soil Stab Chem Analysis (On-Going) – Lab

A system notification is generated to **Central Lab personnel** alerting them to the pending sample record.

Please Note: A sample record will never present with CHL050, Hydrated Lime for Soil Stab Chem Analysis (Initial) and CHL051, Hydrated Lime for Soil Stab Chem

If a new mix is required during life cycle of project (ie, change in lime supplier), a new sample/ CHL050, Hydrated Lime for Soil Stab Chem Analysis (Initial) is required.
