NDOT Bridge Division – Bridge Inspection Program

Bulletin 24.05

SUBJECT: Flammable Materials under highway bridges

To: Nebraska Public Bridge Owners and Inspectors

Response to the FHWA Memorandum dated 11/15/2023:

[Documentation and Treatment of Materials Stored Under a Highway Bridge - Bridge Inspection - Safety Inspection - Bridges & Structures - Federal Highway Administration \(dot.gov\)](#)

NDOT requests that inspectors report any significant quantities of flammable materials that are observed under bridges or in buried structures.

Implementation

During routine bridge inspections, if significant quantities* of flammable materials** are observed under a bridge, the bridge inspector shall take the following steps.

1. Document the type, location, and approximate quantity of flammable material in the inspection notes (BrM > Bridges > Inspection > Condition > Agency Inspection Notes).
2. Notify the bridge owner and NDOT within 24 hours by providing copies of an NDOT 320: Critical Finding Report with at least Part 1 complete.
 - a. Available at <https://dot.nebraska.gov/business-center/bridge/forms/>
3. Create a CFR Notification in BrM by following the steps below.
 - a. Go to BrM > Bridges > Inspection > Work Candidates
 - b. Select 
 - c. Fill out the Type of Work as shown below
