Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Describe your knowledge of the Stitch and what fresh ideas or perspectives you intend to bring to the project.
- Given the financial constraints and grant amount, where do you see the focus of your efforts on scope and schedule.
- How will you manage partnerships that will be necessary, including when wants, needs, or interests diverge while protecting the transportation asset functionality.
- Describe the decision-making process including the potential for a "no-go" decision on a project.
- Each firm should be prepared to answer a variety of Committee questions at the conclusion of their prepared presentation.
