## FOR IMMEDIATE RELEASE

### **REVISED: Construction to begin on the I-80, Q St to N-50 (144th St) project**

**March 28, 2025 (Omaha, Neb.)** — Beginning Sunday night, March 30, weather permitting, work will begin on the Interstate 80 (I-80), Q St to N-50 (144th St) project.

The project consists of constructing an additional lane on westbound I-80 from Q St to Giles Rd and an additional lane at the N-50 exit. There will also be repairs on the I-80 bridges in both directions over Harry Anderson Ave and Giles Rd.

Traffic impacts include various temporary nighttime lane and ramp closures. There will also be lane shifts on I-80 that will remain in place until construction is completed. I-80 traffic will be reduced from 3 lanes to 2 lanes, resulting in significant delays.

(larger map attached)

Construction is anticipated to be complete by fall 2025. For more information, please visit [ndot.info/22853](https://dot.info/22853). The project is the first that came from the Metro Transportation Improvement Study (MTIS). More details about MTIS are available at [ndot.info/mtis](https://dot.info/mtis).

Additional information on NDOT and Omaha metro area projects from the city and county can be found at [ndot.info/mtm](https://dot.info/mtm). For a real-time look at traffic, visit [511.nebraska.gov](https://511.nebraska.gov). Stay safe during construction – plan ahead, follow detours, and always remember: buckle up, phone down.
