Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Expand on your firm's knowledge and experience in delivering grant-funded projects. Identify the key risks anticipated in delivering these projects.
- Describe and demonstrate your firm's knowledge of the environmental hurdles for the project.
- Elaborate on your firm's understanding of the hydraulics for the project.
- Describe your firm's experiences and approach to working with other public entities, including public power districts.
- Each firm should be prepared to answer a variety of Committee questions at the conclusion of their prepared presentation.
