Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discussion of the significance of the Lexington East Viaduct project.
- Importance and understanding of Federal-aid requirements (ex. Change orders, Plan Revisions that may affect environmental, Buy America, etc.)
- Expand on the personnel/inspectors trained in AASHTOWare. How were they trained? What processes are in place should there be problems?
- Describe your Communication Plan and how you update all the partners associated with the project.
- Discuss your plan for successful railroad coordination during construction.
