

HOW MANY PARKING STALLS WILL THERE BE?

The proposed project would provide 134 parking stalls located along the project corridor

- 20 existing stalls would be removed to comply with state law setback requirements
- 9 existing stalls would be removed to create ADA-van accessible parking stalls
- 5 existing stalls would be removed to avoid conflicts with driveways
- 3 existing stalls would be removed to widen existing stalls from 8.5 feet 9 feet
