

NEBRASKA DEPARTMENT OF TRANSPORTATION  
NOTICE OF HIGHWAY IMPROVEMENT PROJECT

# In Fort Calhoun

NH-75-3(124); C.N. 22701

Identified as **In Fort Calhoun**, the proposed project would improve approximately 0.70 miles of U.S. Highway 75 (US-75) located in Fort Calhoun in Washington County.

The proposed project would begin about 0.37 miles north of the south corporate limits of Fort Calhoun, at approximately mile marker (MM) 105.99, and extend north to approximately MM 106.69, about the north corporate limits of Fort Calhoun. Construction may begin and/or end approximately 500 feet ahead of or beyond the actual project limits to accommodate transitioning the pavement.

The purpose of the proposed project is to preserve the transportation asset, improve the reliability of the transportation system and perpetuate the mobility of the traveling public. The need for the proposed project is based on the current condition of the existing roadway.

Proposed improvements would consist of milling and resurfacing the roadway and surfaced shoulders, concrete pavement repairs, curb inlet repairs and curb ramp installations.

The proposed project would not require the acquisition of additional property rights. Access to adjacent properties would be maintained during construction but may be limited at times due to phasing requirements. No wetland and/or other water resource impacts are anticipated.

The Fort Calhoun Trail, Community Building Ball Field at 11th and Monroe, Ball Fields at 12th and Washington, West Market Square Park at 15th

and Monroe, Fort Calhoun Elementary School playground, Fort Calhoun High School track & field area and practice fields, and Radium Petroleum Co. are located within the project vicinity; no impacts are anticipated. No effects to historic properties are anticipated.

Construction is tentatively scheduled to begin in fall of 2023, with anticipated completion by winter of 2023.

This project would be constructed under traffic with lane closures controlled by appropriate traffic control devices and practices.

NDOT has worked to develop this project to minimize inconvenience and hardships. We are dedicated to improving Nebraska's highway system and with your help we can achieve this goal.
