

Pavement Marking Traffic Paint – Quick Reference Guide

In accordance with contract sampling and testing requirements for pavement marking traffic paint, the **sample record creator** creates a sample record using these unique parameters:

Basic Sample Data tab

Material Code: **422PMTP, Pavement Marking Traffic Paint - LIMS Managed**

Material P/S Name: Choose from the search window display for the approved PS

Product Name: Choose from the search window display for the approved products

Contract tab

Link only those contract items associated with this sample record

Other

Destination Lab: NDOT Central Lab

Tests tab

Assign Sample Tests:

CHL060 – Sample & Test – Chemical Lab

CHL061 – Certificate of Compliance – Chemical Lab

The number of required tests is dependent on the installed quantity. The Certificate of Compliance is always required, whereas the Sample & Test template is only required when the installed quantity is equal to or greater than 5,000 linear feet.

A system notification is generated to **Central Lab personnel** alerting them to the pending sample record.
