Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discuss in detail staffing resources and expertise in standing up an SSO.
- Explain knowledge of Program Standards, Submitting the Application, Compliance, and overall knowledge of CFR requirements
- Discuss overall approach to stand-up an SSO in a limited timeframe. What hurdles or risks are there in obtaining certification; What were you able to do to minimize the risks.
- Describe your firm's project management philosophy and what can we expect from your team as we work through the certification process.
