Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Describe how you would evaluate safety in this transition.
- Discuss the challenges with public engagement and strategies for how they can be addressed.
- Outside of bike lanes and traffic modifications, what innovative concepts could be incorporated into the project.
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
