Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discuss your firm's approach to conducting alternatives analysis that considers the integration of roadway and bridge design and the resulting environmental impacts.
- Discuss the critical environmental elements that need to begin ahead of NEPA and your approach to meeting the NEPA timeline.
- Describe your approach to stakeholder engagement for this corridor.
- Discuss your approach to evaluate constructability and phasing challenges
- Describe your experience with Interchange Modification Reports.
