Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discuss integrating connected vehicles into NDOT's transportation network - What data to gather, how do we digest it, and how do we deliver it?
- Discussion on RWIS – State of practice RWIS across the industry and what does a future RWIS site design look like?
- Discuss how your firm can support fiber optic cable construction, repair, inspection, testing and maintenance.
