**Presentation Focus:** The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- What is your philosophy for making NDOT building designs functional and durable, while also being cost effective and budget-friendly?
- When unexpected issues arise, what process do you follow to identify and resolve them efficiently and effectively?
- As this work is a second phase of the 1600 Bldg remodel, how do your contract documents ensure finishes will match phase one?
- How will you complete this project with minimal disruption to occupants of the first floor?
- Each firm should be prepared to answer a variety of Committee questions at the conclusion of their prepared presentation.
