Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Elaborate on the local and regional importance of this project to the City of Blair.
- Describe how this project can shape the long-term development benefits and future growth options for the city and associated economic impacts.
- Describe your vision for how the environmental process will be handled on this project.
- How can your firm better position Blair for future grant opportunities?
- Each firm should be prepared to answer a variety of Committee questions at the conclusion of their prepared presentation.
