

Attachment A
COST PROPOSAL
Nebraska Department of Transportation
RFP 124167 Z6 FWD Testing, Roadway Coring and GPR Services

Proposal pricing shall be the flat cost per service per location for FWD testing, roadway coring, and GPR services, to include all associated costs as listed below, in accordance with these general provisions and specifications. Contractor shall work with M&R personnel and District staff to coordinate a specific date for the Contractor to perform the testing and coring services at specific locations in a single trip. Coring and FWD work will be done under the same traffic control lane closure; it is the Contractor's responsibility to determine means and methods to perform coring and FWD work in a single trip with the same traffic control. Travel costs are included in the contract pricing for single trip services. In the event services are unable to be performed as scheduled and an additional date must be set up to perform the specified work at one of the grouped locations, the Contractor will be allowed to bill at the secondary rate per location.

DISTRICT 1

Description	Provided Service	Locations	Price Per Location	Ext. Price	Total District Price
