

Recycled Asphalt Shingles - Quick Reference Guide

Contractor will provide Recycled Asphalt Shingles—Manufacturer’s Certification Sheet and 5lb sample to **NDOR Central Laboratory** as defined in the specifications.

In accordance with the material requirements denoted on the SMGR Sampling Checklist, **NDOR field personnel** will create a SMGR sample record.

Material Code, Name, and Description:

This new material code, designated as **503RAS, Recycled Asphalt Shingles**, has been included in SMGR to fulfill sampling and testing requirements

Test Templates:

The test method associated to this test process includes:

MSL004001, Certificate of Compliance – Central Lab

MSF008001, Producer/Supplier Submission - Field

** Note: Producer/Supplier Submission shall be completed when the P/S is not available for selection in SMGR. All submissions will be evaluated by the SiteManager Materials staff.

NDOR Central Laboratory personnel will validate the receipt of associated documentation and materials.
