- A pre-wave seat belt and child safety seat usage observation survey should be conducted by agencies approximately 2 weeks before the enforcement wave to measure local restraint usage. The site selected for the survey should be representative of the community as a whole. By recording pre- and post-wave usage rates, you help measure the impact of this campaign. *Surveys can be conducted by other organizations (i.e., Kiwanis, Boy Scouts).

Local Media Event/Pre-Press Release – Release week of May 13th, 2024

- The media event will announce the upcoming enforcement wave and the results of the pre-wave observation survey.

- Officers are asked to “Take the ticket as seriously as the problem,” by issuing tickets, not warnings, when possible.

Post-Wave Survey – Conduct week of June 3rd, 2024

- A post-wave seat belt usage observation survey should be conducted the week after the enforcement wave to measure local restraint usage.
- The survey should be conducted at the same site, on the same day of the week, and at the same time as the original pre-wave survey.

Local Media Event/Post-Press Release – Release week of June 3rd, 2024
