

LPA Emergency Repair Decision Worksheet

Describe the damage to the facility:

Immediate repair must accomplish one (or more) of the following: *(check all that apply)*

- 1. Restore essential traffic**
(i.e., temporary traffic control, maintenance of traffic, or safe passage of emergency vehicles and construction vehicles.)

- 2. Minimize the extent of damage**
(i.e., stop, eliminate, or limit erosion of underlying material, remove loads from structures, or prevent additional facility failure.)

- 3. Protect remaining facilities**
(i.e., close facilities for safety of the public, shore bridges or other structural components, redirect rushing water to avoid breach or further erosion, remove trees and/or overhead items to protect from or prevent collapse.)

Please describe how each will be accomplished by the emergency repair:
