

## Concrete Cores - Quick Reference Guide

In accordance with contract sampling and testing requirements for concrete coring, the **sample record creator** creates a sample record using these unique parameters:

### **Basic Sample Data tab**

Material Code: **600CONC, Hardened Concrete**

P/S Name: Prime contractor who performed work

### **Contract tab**

Link only those contract items associated with this sample record.

### **Other**

Destination Lab: NDOT Central Lab

### **Tests tab**

Assign Sample Tests:

Required and assigned by default

**Compressive Strength & Length of Concrete Cores**

Enter/View Test Data:

Following the prompts, the **sample record creator** will complete template.

A single template will correspond with a single core. Multiple templates can be added to a single sample record. To see summary of core results, the “Contract Summary of Concrete Cores” report is located in the NDOT reports portal.
