Not all projects will require services from all Standard Work Categories listed above.

Instead of developing a scope of service for each project individually, NDOT is attaching the basic scopes of services for each type of service needed, utilizing the project list to specify which services are likely needed for each project. All scopes of services identified below are provided in Attachment B.

B. SCOPES OF SERVICES

6. Right-of-Way (Attachment B5)

The currently planned fiscal year for construction is provided for each project in Attachment A. A more refined schedule will be developed during the detailed scoping and negotiation for each project.
