

400 East Military Avenue, Fremont, NE 68025-5141

Nebraska Aeronautics Commissioners,

The Fremont Municipal Airport was granted funding through the Revolving Hangar Loan program this past fall. Recently, it came to our attention that the original cost estimate for re-sheeting of Hangar F was high, thus making it possible for us to do some sheeting replacement on an additional hangar, if approved by the commissioners.

Based on this information, we respectfully request that our Scope of Work be expanded to include the additional sheeting repairs to Hangar H. This will enable us to maximize the impact and improvements we can make to our facilities. We would greatly appreciate your approval of the expansion of our scope of work for the re-sheeting project we submitted.

We look forward to continuing to grow and improve our infrastructure within our airport facility for years to come.

Cari Hoffart
