Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Discuss the importance and your firm's understanding of Federal-aid requirements (ex. Change orders, Plan Revisions that may affect environmental, Buy America, etc.)
- Describe the key aspects of your firm's Communications Plan and how you keep all the partners associated with the project updated.
- Discuss your plan for oversight and coordinating personnel when there is concurrent work.
- Describe lessons learned from recent NDOT/LPA projects and how will they be incorporated into this work.
- Each firm should be prepared to answer a wide variety of Committee questions at the conclusion of their prepared presentation.
