Presentation Focus: The panel will be well versed in the organizational structure and technical responses provided in the Statement of Qualification for this RFQ. NDOT asks that you not focus a lot of time presenting on those areas unless there have been changes you want to highlight. Instead, NDOT suggests the interview contains information such as the following:

- Describe how your team will function and integrate/operate with NDOT. Include how deliverables can function within a sustainable program at NDOT.

- Discuss the critical elements of Stage 2 and its deliverables.
- Describe how your team will integrate capacity building into a practical, hands-on approach among all Stages of the RFQ.
- Discuss how RIA will fit alongside other active programs/grants into a cohesive approach to delivering projects.
- Each firm should be prepared to answer a variety of Committee questions at the conclusion of their prepared presentation.
