## Nebraska Department of Transportation Mission

To provide the best possible statewide transportation system for the movement of people and goods.

### Assurances

Pursuant to the requirements of Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), as amended, the Nebraska Department of Transportation, hereby gives assurance that no otherwise qualified individual with a disability in the United States shall, solely by reason of his or her disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity receiving Federal financial assistance.

The Nebraska Department of Transportation further assures that its programs will be conducted, and its facilities operated, in compliance with all requirements imposed by or pursuant to 49 CFR Part 27, 28 CFR Part 35 and 42 U.S.C. 12101-12213.

---

Vicki Kramer  
Director  
Nebraska Department of Transportation

12-6-24

---

Date

# Introduction and Overview

The Americans with Disabilities Act (ADA), enacted on July 26, 1990, provides comprehensive civil rights protection to persons with disabilities in the areas of employment, state and local government services and access to public accommodations, transportation and telecommunications. The ADA is companion civil rights legislation with the Civil Rights Act of 1964 and Section 504 of the Rehabilitation Act of 1973. This legislation mandates that qualified disabled individuals shall not be excluded from participation in, denied the benefit of, or be subjected to discrimination under any program or activity.

Implementation of this law was carried forth in the Americans with Disabilities Act Accessibility Guidelines (ADAAG), ADA and ABA Accessibility Guidelines for Buildings and Facilities issued by the United States' Access Board published in the Federal Register July 23, 2004 and amended August 5, 2005, and the Public Right-of-Way Accessibility Guidelines (PROWAG), published in the Federal Register August 8, 2023.

On September 15, 2010, the US Department of Justice (DOJ) issued a Notice of Proposed Rule Making to update guidance for the accommodation of the disabled to become effective March 15, 2011. This guidance provides for the concept of "Safe Harbor" which states that those elements of the pedestrian system which were modified or constructed in accordance with previous guidance may remain in place until the adjacent pavement or the facility itself is altered.

The June 28, 2013, DOJ and Department of Transportation (DOT) issued a directive titled: Department of Justice/ Department of Transportation Joint Technical Assistance on the Title II of the Americans with Disabilities Act Requirements to Provide Curb Ramps when Streets, Transportation, or Highways are Altered through Resurfacing ([https://www.fhwa.dot.gov/civilrights/programs/doj\\_fhwa\\_ta.cfm](https://www.fhwa.dot.gov/civilrights/programs/doj_fhwa_ta.cfm)). This document changed the definition of alteration to include overlays less than 1½" and defined the maintenance activities where elimination of barriers to access is not required.

The ADA covers a wide range of disabilities, from physical conditions affecting mobility, stamina, sight, hearing and speech to conditions such as emotional illness and learning disorders. Such disabilities may or may not be evident to others. The percentage of the United States population affected by a condition that constitutes a disability under the ADA is expected to increase over the coming decades.

The ADA addresses access to the workplace (Title I), state and local government services (Title II), and places of public accommodation and commercial facilities (Title III). It also requires telephone companies to provide telecommunications relay services for people who have hearing or speech impairments (Title IV) and miscellaneous instructions to Federal agencies that enforce the law (Title V).

The ADA under Title II, subpart A, includes public rights-of-way. Section 504 of the Rehabilitation Act addresses the requirements for State Agencies receiving Federal financial assistance. The DOJ has rulemaking authority and enforcement responsibility for Title II, while the United States DOT has been designated to implement compliance procedures relating to transportation, including those for highways, streets, and traffic management. The FHWA Office of Civil Rights oversees the DOT mandate in these areas.

This document is an updated Transition Plan (hereinafter, Plan) concerning existing Nebraska Department of Transportation (NDOT) facilities. This Plan has been developed by the NDOT in accordance with the Americans with Disabilities Act of 1990 (ADA) and 28 Code of Federal Regulations (CFR) § 35.150 (d). The NDOT ADA policy regarding highway construction or alterations is set forth in Department of Transportation Operating Instruction (DOT-OI) 60-10, dated December 29, 2017, entitled "ADA ACCESSIBILITY REQUIREMENTS IN TRANSPORTATION PROJECTS" and subsequent revisions. This document is attached as Attachment "B". NDOT is in the process of updating DOT-OI 60-10 to reflect current Accessibility Guidelines.

NDOT is in the process of updating the ADA Transition Plan for 2025.

# ADA Program Information

## NDOT ADA Coordinator

Kimberly Baker  
Civil Rights Compliance Manager  
1500 Nebraska Parkway  
Lincoln, NE 68512  
402-479-4544  
[ndot.civilright@nebraska.gov](mailto:ndot.civilright@nebraska.gov)

## Notice to the Public

A copy of the Notice to the Public is included as Appendix A of this document. This Notice contains information regarding NDOT's commitment to Non-discrimination, identification of the ADA Coordinator, and information regarding the procedure to file a complaint.

This notice is available on the Nebraska Department of Transportation website and in public areas of select NDOT buildings for viewing.

## Communications

When NDOT receives requests for auxiliary aids, primary consideration as to what type of auxiliary aid and/or service is necessary is determined by the request. "Auxiliary Aids" include such services or devices as qualified interpreters, assistive listening headsets, television captioning and decoders, telecommunications devices for deaf persons (TDD's), videotext displays, readers, taped texts, Braille materials, and large print materials. These auxiliary aids are provided at no charge to the individual. NDOT uses State-Certified Professional Interpreters.

NDOT is not required to provide auxiliary aids that would result in a fundamental alteration in the nature of a service, program or activity or in undue financial and administrative burdens. However, NDOT must still furnish another auxiliary aid, if available, that does not result in a fundamental alteration or undue burden.

NDOT's website and all its contents have been tested for accessibility by persons with hearing or visual impairments. In addition, the NDOT contracts with Usablenet Assistive Technologies to provide a dynamically-generated, text-only and assistive technology-compatible version of the original site that always reflects up-to-date content and services. The service improves web accessibility, conforms to ADA, Section 508, and W3C WCAG web accessibility guidelines.

Hearing impaired individuals may contact NDOT via TTD/TTY phone line, 402-479-3834. Staff has been trained on the use of the TTD/TTY equipment.

## Reasonable Accommodation Procedures

NDOT is committed to providing reasonable accommodation for persons with disabilities as each situation may require. To request a reasonable accommodation for employment, employees should contact the Human Resources Office.

In preparation for public meetings, events, activities, etc., NDOT looks for facilities that will meet ADA requirements for all interested parties. To assist with this process, NDOT may use the Planning Accessible Events Checklist (Appendix F). Specific individual requests from the public for accommodation to these events can be made to the ADA Coordinator, 402-479-4544 or to the Highway Public Involvement Manager, 402-479-4994.

## Employment and Reasonable Accommodation

Policies and practices relating to employment are monitored on an ongoing basis to ensure no discriminatory practices exist. It is NDOT's policy to select qualified individuals who best fit the needs and requirements of the job regardless of race, color, national origin, religion, sex, age, or disability. All position descriptions list "essential job functions" required to perform the duties of the job. Job postings/vacancies are made available to individuals through the State of Nebraska Job Career Center website, <https://statejobs.nebraska.gov/>. For those individuals unable to use the online format, they may contact a member of Nebraska State Personnel or NDOT's Human Resources Division to determine an alternative format to complete the application.

Reasonable accommodations will be made for the interviewing applicant on a case-by-case basis for qualified persons covered under the ADA/Section 504. It is the responsibility of the individual with a disability to request an accommodation.

Once an offer of employment is made, NDOT is prepared to offer reasonable accommodations which would allow a qualified individual with a disability to perform the essential functions of the job.

Information collected by NDOT, for applicants, for the purpose of Equal Employment regarding disabilities is provided on a voluntary basis and is not required by the applicant. This information remains confidential. Refusal to provide the information will not subject the applicant (or employee) to any adverse treatment.

## Section 504/ADA Transition Plan

49 CFR Part 28.150(d) requires the department to develop a Transition Plan that, at a minimum:

- Identifies physical obstacles in the department's facilities that limit the accessibility of its programs or activities to individuals with disabilities;
- Describes in detail the methods that will be used to make the facilities accessible;
- Specifies the schedule for taking the steps necessary to achieve compliance;
- Identifies the official responsible for implementation of the plan.

## Facility Accessibility

In 1990, the Nebraska Department of Transportation conducted an initial assessment of NDOT buildings where a public service or activity would be conducted. These buildings included District Headquarters Offices, District Maintenance Superintendent Offices, Construction Offices, Materials and Research Branch Testing facilities, Central Complex Offices, Rest Areas, and Highway Weigh Stations. In 1992, plans were developed to bring those buildings into compliance with ADA. The work was completed over the ensuing years. Due to employee transition, and converting paper files to digital files, the records and documentation relating to the completion of this work is incomplete. However, to NDOT's knowledge, the work contemplated for the compliance projects has been completed, and the identified buildings complied with the ADA when the work was completed.

Since the ADAAG's implementation, all newly constructed and substantially remodeled facilities have been designed and constructed to comply with the most recent ADAAG standards and guidelines. The remaining identified NDOT facilities where public activities or services are provided were remodeled to comply with ADAAG.

In 2011, Nebraska Department of Transportation contracted with a private consulting group to conduct a self-evaluation of State Owned and Leased Buildings where public activities or services are provided to identify any deficiencies within NDOT facilities that required modification to comply with the ADAAG Standards.

A Self-Evaluation and Transition Plan of NDOT's Highway Right-of-Way facilities was originally completed in 2013 and updated in 2023. As a matter of policy, NDOT removes barriers to access as a part of highway projects when crosswalks are "altered". NDOT will continue to work to remove barriers to access.

Where compliance is technically infeasible, compliance will be completed to the maximum extent feasible. This will

be determined by the Roadway Design Engineer. In cases such as these, documentation of the facts concerning compliance is provided to the Roadway Design Engineer to ensure consistency in the determination.

### ADA Accessibility Requirements in Transportation Projects – Policy

By policy (Department of Transportation Operation Instruction (DOT-OI) 60-10 dated December 29, 2017, NDOT will include accessibility features in applicable construction and maintenance projects or activities on the transportation systems for which it has jurisdictional responsibility as required by the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990 (ADA) and as further defined and clarified in the [2010 ADA Standards for Accessible Design \(2010 Standards\)](#). The office of primary responsibility is the Roadway Design Division.

This DOT-OI (Appendix B) establishes policy for accessibility of pedestrian facilities on street or highway projects on the State Highway System, the National Highway System (NHS), and for local projects funded in whole or in part with state or federal highway funds. NDOT's Roadway Design Division is currently updating the DOT-OI 60-10 along with [Chapter 16](#) (Pedestrian and Bicycle Facilities) of the Roadway Design Manual. These updates are intended to clarify and update language in line with recently published [Public Right-of-Way Accessibility Guidelines](#) (PROWAG).

### Request for Modification

Individuals are offered the opportunity to point out, to the NDOT, facilities where they believe accessibility should be provided and either has not or is insufficient to meet their needs. This opportunity is provided through either contacting the NDOT ADA Coordinator to discuss, informally, the accessibility issues or by completing the [Request for Modification](#) form. This request form is used to report inaccessibility issues relating to the pedestrian facilities of the NDOT. In the event the area in question is not under NDOT jurisdiction, the request will be forwarded to the proper entity for review.

### Monitoring and Updating the Self-Evaluation

The NDOT will update the ADA Self-Evaluation as required. The next scheduled review of NDOT's ADA Transition Plan will take place in 2025. Updates may include the following reviews:

- Updates to ADA Coordinator contact information and responsibilities
- Grievance procedure
- Current programs, policies as well as improvements to policies, practices, and services
- Employment Practices
- Communication Practices, auxiliary aids provided
- Updated inventory of NDOT facilities. It is NDOT's intent to create a GIS map of the curb ramp inventory.

## ADA Complaint Procedures

These procedures apply to all complaints filed under ADA Title II of the ADA and Section 504 of the Rehabilitation Act of 1973, relating to any program or activity administered by NDOT or its subrecipients, consultants and/or contractors. Intimidation or retaliation of any kind is prohibited by law.

Persons Eligible to File: any individual or group of individuals, or entity who believes that he or she or any specific class of persons has been subjected to discrimination or retaliation prohibited by any of the Civil Rights Authorities based on a disability.

Discrimination: an act (or action) or inaction whether intentional or unintentional, through which a person in the United States, based on race, color, sex, age, national origin, or disability has been subjected to unequal treatment under any program or activity receiving Federal financial assistance.

Two complaint forms are available for the individual. The [Discrimination Complaint Form](#) (Appendix D) is for individuals who believe NDOT's programs, services, or activities may be discriminatory. If people have specific

concerns about NDOT's Right-of-Way facilities, or pedestrian crosswalks, they are encouraged to use the [Pedestrian Accessibility Complaint Form](#) (Appendix E) which requests specific information regarding the area of concern. Either form is accepted for any complaint of this type. The NDOT Investigator will work to see that all information is obtained to properly review the concern.

### Filing of Complaint

1. Complaints may be filed by the affected individual or a representative of that individual.
2. Complaints must be in writing and contain as much information as possible about the alleged discrimination. The NDOT has prepared a Complaint Form to be used for the convenience of the complainant. The written complaint should include:
  - Complainant's name, address, and telephone number
  - A detailed description of the issues,
  - Name and job titles of individuals perceived as parties in the complaint

Complaints received by telephone will be placed in writing and provided to complainant for confirmation or revision, and signature before processing.

3. Complaint forms will be available on the NDOT website or by contacting the NDOT ADA Coordinator. Complaints and substantiating information should be sent to:

Nebraska Department of Transportation  
Kimberly Baker, Civil Rights Compliance Manager  
1500 Nebraska Parkway  
PO Box 94759  
Lincoln, NE 68509-4759  
402-479-4554  
[ndot.civilrights@nebraska.gov](mailto:ndot.civilrights@nebraska.gov)

Alternate means of filing a complaint will be made available to accommodate persons with disabilities upon request.

4. A complaint should be filed as soon as possible but must be no later than 180 calendar days after the complainant becomes aware of the alleged discrimination, unless the time for filing is extended by the designated agency for good cause shown.
5. Upon receipt of the complaint, the NDOT will notify the FHWA.
6. The NDOT ADA Coordinator, or other Investigator, will contact the complainant to:
  - Acknowledge receipt of the complaint by the investigator.
  - Confirm that the complainant wishes to go forward with the complaint.
  - Confirm that there are allegations that need to be investigated and resolved.
  - Gather additional facts and further clarify the complaint.

### Investigation of Complaint

A Trained Investigator will review and investigate the complaint. As part of the review, the investigator will at minimum:

- Gather relevant documentation from the complainant not included in the complaint, such as forms, memos, letters, and photographs information.
- Contact complainant to arrange and conduct interview, if needed.

- Maintain log of all activities associated with complaint.
- Complete Investigative Report of information, findings, photos, and recommendations.

A copy of the complaint, together with a copy of the State’s report of investigation, shall be forwarded to the FHWA Nebraska Division office within 60 days of the date the complaint was received by the State.

### Dismissal of Complaint

A decision by NDOT to dismiss a complaint can be done for the following reasons:

- The complaint is untimely filed
- The complaint does not allege a basis covered by the statutes for which NDOT is responsible
- The complaint does not allege any harm with regard to a covered program, service, activity, or facility
- The complainant requests the withdrawal of the complaint
- The complainant fails to respond to repeated requests for additional information needed to process the complaint.
- The complainant cannot be located after reasonable attempts

## Self-Evaluation

This Plan includes an evaluation of the following NDOT facilities where programs are provided to the public or services to the public are provided: (1) Interstate Rest Areas; (2) NDOT Office Buildings including Central Headquarters and District Headquarters Buildings; (3) local maintenance offices, shops, and equipment and material storage buildings, to the extent provided below; (4) the curbs on the State Highway System; and (5) Aeronautics facilities. Internal compliance is monitored and ensured through the NDOT Program Management Division in coordination with the NDOT Operations Division and Roadway Design Division.

Nebraska law provides that the NDOT is responsible for the construction, operation, and maintenance of the State Highway System. However, the NDOT is not responsible for that part of a state highway within the corporate limits of a municipality that “exceeds the design of the rural highway leading into the municipality”, [Neb. Rev. Stat. §39-2105\(1\)](#). Accordingly, municipalities are responsible for that part of the highway that exceeds the cross section of the highway entering the municipality, such as sidewalks, storm sewers and curbs and gutters, [Neb. Rev. Stat. §39-1339](#). Therefore, the NDOT does not have a duty to construct, operate or maintain the parallel or perpendicular sidewalks within the corporate limits of a Nebraska municipality.

However, in accordance with 28 C.F.R §35.150(d)(2), NDOT has a duty to include within this Plan an evaluation of the location where pedestrian walks cross curbs on its highways. The federal regulation states:

If a public entity has responsibility or authority over streets, roads, or walkways, its transition plan shall include a schedule for providing curb ramps or other sloped areas where pedestrian walks cross curbs, giving priority to walkways serving entities covered by the Act, including State and local government offices and facilities, transportation, places of public accommodation, and employers, followed by walkways serving other areas.

To comply with this mandate, this Plan includes a summary of locations where pedestrian walks cross curbs on State highways. This summary is included as Attachment “G”. During the 2023 review, it was identified that the 2009 Curb Ramp Inventory also included sidewalks for which the municipality is responsible. Prior to the next ADA Transition Plan update, these locations will be removed from the Curb Ramp Inventory.

## Components of the Transition Plan

Based on 28 CFR §35.150(d)(3), the following parts of this transition plan will (1) identify physical obstacles in the public entity's facilities that limit the accessibility of its programs or activities to individuals with disabilities; (2) describe in detail the methods that will be used to make the facilities accessible; (3) specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and (4) indicate the official responsible for implementation of the plan. The NDOT reviewed its buildings and determined which buildings are used to provide a public service or conduct public activities or programs. In 2012, an evaluation was completed to identify buildings and facilities for compliance with the ADA. An updated facility review was completed in 2023.

### I. **Identification of Physical Obstacles.**

#### A. **Interstate Rest Areas**

In the 1990s, all Interstate Rest Areas were inspected, and structural changes were completed to make them accessible. NDOT has reconstructed most of the existing rest area buildings since that time. NDOT evaluated highway rest area facilities intended for use by the public for compliance with the provisions of the ADAAG. This evaluation was completed in 2012 and again in 2023. The Building Transition Plan is included as Appendix H.

#### B. **NDOT District and Central Headquarters Office Buildings**

In the 1990s, the NDOT District and Central Headquarters office buildings were evaluated for accessibility, and improvements were completed. NDOT has confirmed that necessary improvements were completed to provide the requisite accessibility. This evaluation was completed in 2012 and again in 2023. The Building Transition Plan is included as Appendix H.

#### C. **Local maintenance offices, equipment, and material storage buildings**

In the 1990s, NDOT evaluated at which of these buildings public programs or activities are provided. It was determined that the offices of the Highway Maintenance Superintendents are buildings where the public will be expected to meet with Department officials. The other NDOT maintenance, equipment and material storage buildings do not provide programs or activities for the public. Modifications for accessibility were identified for the public buildings and improvements have been made since that time. NDOT has confirmed that necessary improvements were completed to provide the requisite accessibility. This evaluation was completed in May 2012 and again in 2023. The Building Transition Plan is included as Appendix H.

#### D. **Curbs on the State highways**

NDOT includes curb ramps on all projects as defined in the DOT-OI 60-10. A curb ramp inventory was completed in 2009 and updated in 2023. The Curb Ramp Inventory is included as Appendix G. During the 2023 review, it was identified that the 2009 Curb Ramp Inventory also included sidewalks for which the municipality is responsible. Prior to the next ADA Transition Plan update, these locations will be removed from the Curb Ramp Inventory.

### II. **Methods to Make Facilities Accessible**

As stated in DOT-OI 60-10, the NDOT is committed to providing accessibility across the facilities for which it is responsible. To eliminate the barriers to access at crosswalks which cross the highway system, NDOT will remove the curb and install a compliant curb ramp matching into the existing sidewalk. The Standard Plans that NDOT uses to guide the construction of curb ramps are available on NDOT's [website](#). Providing accessibility will be governed by the technical feasibility of providing such accessibility as defined in the 2010 ADA Standards and the PROWAG. NDOT is currently in the process of updating the DOT-OI 60-10 and [Chapter 16 \(Pedestrian and Bicycle Facilities\)](#) of the Roadway Design Manual.

### III. Implementation of the Plan

In 2025, NDOT will continue to address curb ramps on programmed projects (as defined in the DOT-OI 60-10) and will update facility inventories to identify prioritization strategy for future years. If additional facilities are identified that are not in a location captured by a programmed project, NDOT's goal will be to program curb only projects to be delivered, as funding and schedule allows. Facility updates for both programmed projects and curb ramp only projects would be completed within the next 5-10 years. NDOT will develop a more detailed schedule for projects after the Curb Ramp Inventory has been updated. Prior to programming projects to address curb ramp locations identified in Appendix G, the Curb Ramp Inventory will be updated to remove locations for which a municipality is responsible. In addition, NDOT will confirm the locations identified as compliant in the Curb Ramp Inventory meet current ADA standards. This will be completed prior to the next submittal of NDOT's ADA Transition Plan.

#### A. Curb Ramp Project Criteria

NDOT will design and construct curb ramps on Nebraska highways for projects as defined in the DOTOI 60-10. In alterations, where existing physical constraints make compliance with applicable requirements technically infeasible, compliance with these requirements will be completed to the maximum extent feasible.

In Nebraska, most of the sidewalks on the State highway system right-of-way are inside city limits. Pursuant to [Neb. Rev. Stat. §39-1339](#), NDOT does not have the legal authority to maintain sidewalks identified as an appurtenance.

NDOT programmed curb ramp only projects that were let/constructed between FY 2014 through FY 2023. The curb ramp only projects were intended to address identified barriers that were not in a location captured by a programmed project. Further, upon request of a person with a disability, barriers to access will be removed or mitigated as technically feasible to complete an accessible route for that person to a priority location. In 2025, NDOT will further evaluate the locations in the Curb Ramp Inventory to identify which locations need to be addressed for ADA compliance.

#### B. NDOT Building Facilities Priority Criteria

NDOT facilities that have accessibility needs identified through the evaluation process will be addressed in the following order of priority:

- Interstate Rest Areas
- Central Complex headquarters facilities and training facilities
- District headquarters facilities
- Aeronautics facilities

#### C. Funding

1. The Nebraska Surface Transportation Program includes a 6-year forecast of Interstate Rest Area, highway, and bridge construction projects. All projects reflected in this program that include ADA compliance modifications will be funded by a combination of state and Federal funds. The 6-year program is revised annually to reflect revised asset condition, revenue and expense estimates and project schedules.
2. NDOT building facility projects will be constructed or modified using state funds. NDOT building projects are budgeted and prioritized following the NDOT Capital Facilities Procedure Manual which includes a Long Range Assessment that forecasts needs for next 20 year, and, a Six-Year program forecast updated every 2 years.

IV. **NDOT Official in Charge of Implementation**

The NDOT employee responsible for implementing this Transition Plan is:

Kimberly Baker  
Civil Rights Compliance Manager  
1500 Nebraska Parkway  
P.O. Box 94759  
Lincoln, NE 68509-4759  
402-479-4544  
[Kimberly.k.baker@nebraska.gov](mailto:Kimberly.k.baker@nebraska.gov)

V. **Public Involvement**

The public involvement in the development of the 2013 ADA Transition Plan was as follows:

- A. The 2013 Transition Plan (Plan) was made available on the NDOT web site for public comment. The Self Evaluation of NDOT buildings and NDOT Building Transition Plan were included as part of the public review. Copies of the Plan were made available, upon request, at the NDOT Central Headquarters building and at the eight NDOT District Offices. NDOT was prepared to share copies of the plan in any reasonably available format if requested.
- B. The public comment period was 60 days, beginning June 3 through August 3, 2013. NDOT was prepared to accept comments to the NDOT ADA Coordinator. Mailings were sent to ADA Advocacy groups inviting them to participate in this review. In addition, notifications were sent to 140+ subscribers of the NDOT Title VI webpage, Tweets to 3600+ NDOT Twitter Followers, and other NDOT website followers. No comments were provided to NDOT regarding the 2013 ADA Transition Plan.
- C. NDOT was prepared to conduct a public hearing in the event the Department believed the comments and concerns received justified the need for a public hearing. Because no comments were received no public hearing was conducted.
- D. The Department will continue to give complete and objective consideration to all comments about the Plan and will make changes to the Plan as deemed appropriate.
- E. Prior to completing additional formal public involvement, the Department will complete an updated self-evaluation.

VI. **Local Public Agency (LPA) and Subrecipient Oversight**

It is the responsibility of the NDOT to oversee Federal aid subrecipient ADA programs, as well as their implementation, in the Public Rights-of-Way. This includes ensuring that LPA's and other subrecipients have met the requirements set out in 28 CFR 35. The following process, based on the relative risk of localities for non-compliance, makes use of a tiered approach:

- A. Solicit ADA policies from Local Public Agencies and federal aid subrecipients. The ADA Policy shall include:
  - 1. General ADA Policy of Non-discrimination
  - 2. Identification of ADA Coordinator
  - 3. Section 504/ADA Notice to Public
  - 4. Brief status of Self-Evaluation, and expected date of completion (full Self-Evaluation, including a list of non-ADA compliant barriers, must be available for review by NDOT).

5. Brief status of Transition Plan, and expected date of completion of the plan document, if required (full Transition Plan, including a timeline for non-ADA compliant barrier removal, must be available for review by NDOT).
6. Complaint procedures
7. Reasonable Accommodation Procedures
8. ADA Assurances, signed by designated official and a resolution of the governing body designating said official to sign for the entity.

B. Effective January 2014, NDOT has been requiring that LPA's and subrecipients have an ADA Policy in place prior to NDOT approving the request for federal funding of a new project. In-place ADA policies are tracked and maintained in the NDOT Civil Rights Office. The revised NDOT-530 form (LPA Project Programming Request) includes a question asking if the LPA has a signed ADA Policy and signed Title VI Nondiscrimination Agreement. If they were not previously submitted, they are requested to attach the documents as part of the NDOT-530 submittal.

## Appendix A

ADA Policy Notice

# Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973

## NOTICE

In accordance with the requirements of Title II of the Americans with Disabilities Act of 1990 (ADA), the Nebraska Department of Transportation (NDOT) will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs or activities.

NDOT does not discriminate on the basis of disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under Title I of the ADA.

NDOT will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in NDOT's programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.

NDOT will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in NDOT offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service, or activity of NDOT should contact NDOT's ADA Coordinator as soon as possible, but no later than 48 hours before the scheduled event:

The ADA does not require NDOT to take any action that would fundamentally alter the nature of its programs or services or impose an undue financial or administrative burden.

Complaints that a program, service, or activity of NDOT is not accessible to persons with disabilities should be directed to the ADA Coordinator.

NDOT will not charge a fee on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.

Contact Information:

NDOT ADA Coordinator  
1500 Nebraska Parkway  
Lincoln, NE 68509-4759

## Appendix B

DOT-OI 60-10 ADA Accessibility Requirements in Transportation Projects

## ADA ACCESSIBILITY REQUIREMENTS IN TRANSPORTATION PROJECTS

- \*\*\*
1. **Purpose:** The State of Nebraska, Department of Transportation, (NDOT), will include accessibility features in applicable construction and maintenance projects or activities on the transportation systems for which it has jurisdictional responsibility as required by the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (ADA) and as further defined and clarified in the Americans with Disabilities Act Accessibility Guidelines (ADAAG) <http://www.access-board.gov/prowac/draft.htm#Text>. The office of primary responsibility is the Roadway Design Division. This DOT-OI supersedes DOT-OI 60-10 dated May 13, 2009.
  
  - \*\*\*
  2. **Scope:** This DOT-OI establishes policy for accessibility of pedestrian facilities on street or highway projects on the State Highway System, the National Highway System (NHS), and for local projects funded in whole or in part with state or federal highway funds. This DOT-OI shall be considered in conjunction with DOT-OI 60-11 which details the financial responsibilities of project participants.

### A. **Projects or Activities Subject to the Requirements of this Policy:**

- (1) New Construction projects (Section 3A)
- (2) Reconstruction projects (Section 3B)
- (3) Other construction projects that meet any of the following criteria (Section 3C):
  - (a) Pavement overlays with a design thickness of 1.5 inches or greater
  - (b) Pavement repair or patching that requires replacement of curb within a crosswalk that does not currently have a curb ramp
- (4) Traffic signal installation or reconstruction (Section 3D)
- (5) Construction Projects on Local Roads and Streets (Section 3E)
- (6) Roadway Maintenance Activities (Section 3F)
- (7) Construction Authorized by Right-of-Way Permits (Section 3G)

### B. **Projects or Activities Excluded From the Requirements of this Policy:** The following projects or activities are excluded from the requirements of this policy provided that the work does not create an elevation difference greater than 0.5 inches at the gutter line in a crosswalk.

- (1) Constructing chip seals, sand seals, microsurfacing, fog seals or armor coats

- (2) Patching or repairing potholes
- (3) Striping or re-striping roadways including crosswalks
- (4) Maintaining, repairing, replacing, or upgrading roadside safety devices such as guardrail or median barrier
- (5) Maintaining and repairing traffic signals as further identified in Section 3D
- (6) Maintaining, repairing, replacing, or upgrading permanent traffic control signs and devices
- (7) Constructing overlays by milling and resurfacing with a design thickness of less than 1.5 inches
- (8) Placing overlays with a design thickness of less than 1.5 inches
- (9) Pavement repair or patching that does not require replacement of curb within a crosswalk
- (10) Maintaining or repairing roadside shoulders
- (11) Sealing pavement joints and cracks
- (12) Grinding or profiling pavement surface
- (13) Patching or repairing of utility pavement cuts
- (14) Constructing, maintaining, repairing, replacing, or upgrading of roadway lighting
- (15) Maintaining or repairing drainage systems
- (16) Retrofitting pavement with dowel bars
- (17) Repairing or replacing sidewalk panels
- (18) Other work not specifically covered by Section 3

Although the above listed Projects or Activities are exempt from the requirements of this Policy, any Project or Activity that requires the closure of a sidewalk shall conform to the requirements of Section 4.

3. **Accessibility Policy for Applicable Projects or Activities:** The following shall apply to projects or segments of projects.
- A. **New Construction Projects** – New construction projects are constructed in a new location and are designed to meet the new and reconstructed requirements of the Nebraska Minimum Design Standards. Accessibility features will be included to the extent required by the ADAAG.
  - B. **Reconstruction Projects** – Reconstruction projects are projects designed to conform to the new and reconstructed requirements of the Nebraska Minimum Design Standards in an existing location of a roadway. Accessibility features will be included to the extent technically feasible as provided by the ADAAG.
  - C. **Other Pavement Projects** – Other pavement projects include:
    - Pavement overlays with a design thickness of 1.5 inches or greater
    - Pavement repair or patching that requires replacement of curb within a crosswalk that does not currently have a curb ramp

The following subsections apply to other pavement projects:

- (1) **Curb Ramps** – Curb ramps will be constructed within project limits. Curb ramps should be constructed, or reconstructed when necessary, whenever an activity listed in Section 2.A. alters the pavement in a crosswalk. When an activity causes a differential in elevation in gutter line at a crosswalk with a curb ramp in excess of 0.5 inches, the differential must be eliminated.
- (2) **Landing Area of the Curb Ramp** – Whenever a new curb ramp is installed as a part of a project, the landing area on the sidewalk side of the curb ramp will be evaluated to identify and implement, if reasonable, other improvements to provide an open and useable landing area. For example, reasonable steps should be taken to relocate signs and other objects to a location outside of the landing area.
- (3) **Sidewalk** – New sidewalks will not ordinarily be installed, and existing sidewalks will not ordinarily be replaced except as necessary to create a transition from the new curb ramp or landing area to the adjacent sidewalk. Based on Neb. Rev. Stat. §§ 39-2105 and 39-1339, generally, cities and villages have the duty to construct, operate, and maintain sidewalks and curb ramps along the state highway system within the corporate limits.
- (4) **Driveways** – Ordinarily, driveways will not be replaced or reconstructed as a part of this policy.

**D. Installation or Reconstruction of Traffic or Pedestrian Signals** – The following shall apply when a traffic signal is installed or rebuilt, and pedestrian or bicycle traffic is expected to be present within the next five years:

- (1) Assess the need and install accessible pedestrian signals with the work when necessary.
- (2) Install curb ramps necessary for the proper functioning of the traffic signal.

\*\*\*

- (3) Install sidewalks to connect the curb ramps to the existing pedestrian routes. If no connecting sidewalks currently exist within the limits of the project, the NDOT shall build sufficient sidewalk to access the pedestrian push button and enter into an agreement for the local entity to complete the sidewalks at a later time.

The following shall apply when a pedestrian or school crossing traffic signal is installed or reconstructed:

- (1) Assess the need and install accessible pedestrian signals with the work when necessary.
- (2) Install curb ramps necessary for the proper functioning of the traffic signal.

\*\*\*

- (3) Install sidewalks to connect the curb ramps to the existing pedestrian routes. If no connecting sidewalks currently exist within the limits of the project, NDOT shall enter into an agreement for the local entity to complete the sidewalks.

Traffic signal, pedestrian signal or school crossing signal installation or reconstruction completed by a municipality or as part of a right-of-way permit or agreement shall meet the requirements of this section. In addition, work that is performed by a developer as a part of a right-of-way permit shall include the construction of all necessary connecting sidewalks or trails.

When a signal is installed, or reconstructed, the need for accessible pedestrian signals shall be studied and if warranted integrated into the pedestrian push button to the extent required in Public Rights-of-Way Accessibility Guidelines (PROWAG).

For the purposes of this policy, reconstruction of a traffic signal shall not include routine maintenance, repair of the traffic signal, replacement of signal heads, replacement of any cabinet components, or replacement of poles, mast arms, signal components or controller cabinet.

Traffic signal installations at locations where pedestrians are not allowed to cross should have signs indicating no crosswalk. Traffic signal installations at locations where pedestrians are not expected within the next five years should not include the installation of pedestrian signals unless there is an engineering basis for such installation.

**E. Construction Projects on Roads and Streets Off the State Highway System** – Local street or road projects funded in whole or in part with federal or state funds or activities on the NHS regardless of funding must be designed and constructed in compliance with this policy.

\*\*\* (1) The local entity has a duty to ensure that the project plans and specifications comply with the applicable requirements. NDOT is authorized, but not required, to confirm the local entity's completion of its duty under this paragraph.

\*\*\* If the local entity declares it is not technically feasible to comply with a particular accessibility requirement, the local entity shall submit to the NDOT Local Projects Engineer documentation from a professional engineer licensed to practice in the State of Nebraska that describes how meeting the specific requirement is technically infeasible and a design plan showing how the local entity intends to make the facility accessible to the maximum extent feasible.

The Local Projects Engineer shall review and approve or deny the proposed design plan. Any deviations from the ADAAG must meet the test of technically infeasible.

\*\*\* (2) The NDOT will apply the requirements of this document in the following manner:

\*\*\* (a) Each agreement between NDOT and a local entity shall contain the following language:

“The local entity shall comply with the requirements of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990 (ADA), and applicable federal regulations and standards to the extent required by the policy “ADA Accessibility Requirements in Transportation Projects.””

(b) The local entity shall not submit a project for letting unless it or its consultant has confirmed that the project is in compliance with the ADA and ADAAG.

\*\*\* (c) The local entity shall certify to NDOT that the project has been constructed in substantial compliance with the plans and specifications and that the completed construction complies with the requirements of Title II of the ADA, applicable federal regulations, and the ADAAG to the extent required by this policy.

F. **Roadway Maintenance Activities** – Generally, maintenance activities (Section 2B) are not alterations and are not subject to the requirements of this policy except to the extent specifically identified below.

- (1) Curb ramps shall be installed when pavement repair or patching requires the replacement of a curb within a crosswalk that does not have existing curb ramps.
- (2) The accessibility of a crosswalk will be restored to pre-activity conditions whenever surface maintenance of the highway causes a 0.5-inch differential in the surfacing within the crosswalk. The 0.5-inch differential will need to be eliminated either by tapering or grinding.

\*\*\*

G. **Construction Authorized by Right-of-Way Permits** – Right-of-way permits issued, or agreements entered into by NDOT including the construction or modification of pedestrian facilities shall contain the condition that the permittee will comply with the requirements of this policy, applicable federal regulations, and the ADAAG. Permits shall not be issued for work until an engineer, licensed to practice in the State of Nebraska, has certified to NDOT that the plans comply with this policy. NDOT is authorized, but not required to review the plans to confirm compliance with this policy. Traffic Impact Studies will be required to determine whether pedestrians are expected to be present at the site of the permitted construction and if so, what accessible pedestrian facilities are required. If the project is within the corporate limits of a municipality or its extra-territorial jurisdiction, the applicant should coordinate the need for constructing pedestrian facilities with the municipality. When accessible sidewalks or other pedestrian facilities are not constructed as part of a permitted project within the corporate limits of a municipality or its extra-territorial jurisdiction, the applicant shall enter into an agreement with the municipality stipulating the responsibility for completion of the accessible pedestrian facilities when required by this policy. The NDOT District Engineer or their designee has the right, but not the duty to verify through on-site inspection that the ADA facilities as constructed meet the requirements of the ADAAG and Public Rights-of Way Accessibility Guidelines (PROWAG).

4. **Temporary Accessible Pedestrian Facilities:** Temporary accessible pedestrian facilities should be constructed when any primary accessible route or crossing will be blocked.

The person or entity in charge of the project or activity shall determine whether any of the pedestrian facilities within the limits of the project are used as a primary accessible route across the project or to an adjoining commercial, retail, medical or governmental property.

A primary accessible route or crossing is (a) a moderate to heavily used accessible crosswalk that serves as a connector between businesses with regular pedestrian traffic, or between parking areas and business, medical or governmental buildings dependent on such parking or (b) a public sidewalk used as a part of an accessible route to a business, when there is no reasonable alternate accessible route for customers traveling to that business.

In a business district, provision for one primary accessible crossing through the work zone shall be made at least every two blocks.

Temporary accessible pedestrian facilities should include accessibility features as practicable and reasonably consistent with the features present in the existing pedestrian facility.

Blocked sidewalks and re-designated accessible routes shall be marked in accordance with Section 6.D. of the MUTCD.

- \*\*\*
5. **Design Standards:** NDOT adopts the ADAAG as the design standard to be used when facilities are designed pursuant to this policy. NDOT will design to the standards of the Public Rights-of-Way Accessibility Guidelines (PROWAG) whenever the requirements of the PROWAG exceed the requirements of ADAAG. NDOT and FHWA anticipate that the PROWAG will be published as a final rule and be incorporated into the Federal Regulations. In the event the Federal Regulations are revised to establish PROWAG as a design standard, NDOT shall meet its requirements. FHWA has indicated in a memo dated January 23, 2006 that the PROWAG is the state of the practice and shall be used for design except when the ADAAG is more restrictive.
  
  - \*\*\*
  6. **Resolving Accessibility Complaints:** It is the District Engineer's responsibility to resolve complaints concerning the accessibility of pedestrian facilities on highway right-of-way. Complaints shall be handled in an expeditious manner to ensure the timely resolution of all complaints. Complaints received in offices outside the District Office will be sent to the attention of the District Engineer for investigation and resolution. When received in the District, a copy of the complaint will be forwarded to the State of Nebraska ADA Contact, 301 Centennial Mall South, Mall Level, P.O. Box 94905, Lincoln, NE 68509-4905, the NDOT Civil Rights Coordinator in the Program Management Division and to the Roadway Design Engineer. The DAS Statewide Civil Rights Coordinator is responsible for monitoring the resolution of these complaints. The Roadway Design Division will function as a resource during resolution of the complaints. The NDOT Civil Rights Coordinator shall develop and update forms for the Pedestrian Accessibility Complaint Process and Request for Modification Process. These documents along with the State's ADA Complaint Procedure are available on the Department's website or from the NDOT Civil Rights Coordinator.
  
  7. **Technically Infeasible:** The ADA provides a limited exception to meeting the accessibility requirements for projects and activities altering an existing facility when it is technically infeasible to meet those requirements. Section 4.1.6 (1) (j) of the ADAAG states as follows:

EXCEPTION: In alteration work, if compliance with Section [4.1.6](#) is technically infeasible, the alteration shall provide accessibility to the maximum extent feasible. Any elements or features of the building or facility that are being altered and can be made accessible shall be made accessible within the scope of the alteration.

'Technically infeasible' is defined in the ADAAG as follows:

*Technically Infeasible.* Means, with respect to an alteration of a building or a facility, that it has little likelihood of being accomplished because existing structural conditions would require removing or altering a load-bearing member which is an essential part of the structural frame; or because other existing physical or site constraints prohibit modification or addition of elements, spaces, or features which are in full and strict compliance with the minimum requirements for new construction and which are necessary to provide accessibility.

After exhausting all reasonable alternatives, it may sometimes be determined under this policy that strict adherence to all accessibility requirements may not be technically feasible. A design that does not meet the requirements may be allowed when consistent with this section.

- A. The following is a nonexclusive list of situations when an exception may be considered:

When ADAAG slope requirements cannot be met because of the difference in elevation between the highway and:

- (1) the floor elevation of existing buildings or structures;
- (2) the topography or geography of the area adjoining the project;
- (3) the elevation of intersecting streets and roads.

When building the project in strict compliance with the ADAAG would cause:

- (1) the project to encroach on an environmentally sensitive or protected area;
- (2) the project to not conform with minimum design standards;
- (3) the project to negatively affect historic property, park lands, tribal lands, or other similar properties;
- (4) an adverse effect on the safety of the traveling public.

\*\*\*

- B. In determining whether a finding of technical infeasibility under the ADAAG should be granted, the NDOT may consider the availability of a reasonable alternate accessible route.

- \*\*\* C. When it is asserted that compliance with a particular standard is technically infeasible, documentation shall be submitted to the NDOT Roadway Design Engineer that describes why all the requirements cannot be met and providing a design complying to the fullest extent possible. The request for an exception shall provide all necessary facts showing that a design in strict adherence would qualify as technically infeasible. The request shall include a complete description of the work considered to be beyond the scope of the transportation improvement that would be required. Cost to make a facility accessible is a consideration but is not a determining factor.
- \*\*\* D. The Roadway Design Engineer has the authority to approve or deny requests by NDOT and others for an exception based on a finding of technical infeasibility.
8. **Maintenance of Accessible Facilities:** Based on Neb. Rev. Stat. §§ 39-2105 and 39-1339, generally, cities and villages have the duty to construct, operate, and maintain new and existing sidewalks and curb ramps along the state highway system within the corporate limits. Construction, operation, and maintenance of facilities constructed outside the corporate limits shall be addressed by agreement with the local agency or the Sanitary Improvement District.
- \*\*\* 9. **Training:** The NDOT will provide training required to implement this policy.
- \*\*\* 10. **NDOT Publications:** The NDOT Roadway Design Manual and Standard/Special Plans, the NDOT Construction Manual, the NDOT Right-of-Way Manual and the NDOT Maintenance and Operations Manual shall be amended or supplemented by the Division responsible for each manual as appropriate to provide guidance for ADA accessibility issues.
- \*\*\* 11. **Documentation:** Documentation of project specific decisions related to accessibility shall be kept in the project records and archived as require by the records retention policy. Non-project related decision documents shall be retained in the appropriate file in the District and archived according to the records retention policy. All documentation shall be copied to the appropriate folder in the NDOT document management database.

Khalil Jaber, P.E.  
Deputy Director – Engineering

ADA Accessibility Checklist

**ADA Accessibility  
Checklist**

Event: \_\_\_\_\_  
 Project: \_\_\_\_\_  
 Date: \_\_\_\_\_  
 Time: \_\_\_\_\_  
 Venue: \_\_\_\_\_

Element	Accommodation Area	Yes	No	N/A
<u>Transportation</u>	Is the facility/meeting location accessible by public transportation?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	If yes, is public transportation available at the time of the meeting/training?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Evacuation</u>	Do you know the emergency evacuation plans for the meeting/training location?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Parking</u>	Does the building have parking spaces with the International Symbol of Accessibility mounted at least 60" above the ground?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are they at least 8' wide and have 5' aisles next to them?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Sidewalk</u>	Are there unobstructed curb ramps leading to the sidewalk?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Walkway</u>	Is there a walkway from the parking lot to the building, at least 36" wide?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Does the walkway have a stable and firm surface?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	If the accessible route is different from the primary route to and through the building, can you post signs with the wheelchair symbol that slow the route?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is the walkway level and free of steps?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	If no, is there a ramp at least 36" wide?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Entrance/Doors</u>	If there is a ramp, does it have a gentle slop (1" rise to 12" length)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is the door at least 36" wide ( <i>wide enough for a wheelchair</i> )?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Can the hardware be operated with one hand ( <i>level, push plate, etc.</i> ) with minimum of twisting or grasping?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are the handles low enough to reach ( <i>maximum 48" high</i> )?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Can the door be pushed open easily?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is the threshold no more than ½" high and beveled?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	When a vestibule, is there a minimum of 48" between the sets of doors?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<b>Element</b>	<b>Accommodation Area</b>	<b>Yes</b>	<b>No</b>	<b>N/A</b>
<u>Floors</u>	Are the floors hard and not slippery?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is there a floor mat to dry feet and crutch tips to prevent slipping?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Corridors</u>	Is there a 36" corridor, from the entrance to where the meeting/training is held?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is the path free of objects projecting 4" maximum into the corridor?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Elevators</u>	Is there an elevator in the facility where the meeting/training is located?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	If yes, is it a working one that is large enough for a wheelchair?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are the controls within reach ( <i>maximum 48"</i> )?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Do the controls have Braille?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is there an audible signal ringing at each floor?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is there an audible two-way emergency communication system in the elevator?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Meeting/Training Rooms</u>	Is there enough clearance around the table for a wheelchair to move?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Can the wheelchair pull under the edge of the table to sit close?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Restrooms</u>	Is there a wide, accessible path to the restroom?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is there a toilet stall wide enough that a wheelchair can enter and close the door behind? Interior space to turn around?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is the water closet ( <i>toilet</i> ) 17-19 inches high to the rim?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Can the wheelchair roll under the sink ( <i>29" to the bottom</i> )?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Can the faucets be reached and turned on easily?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Are the dispensers ( <i>soap, towel, etc.</i> ) reachable ( <i>maximum 48" high</i> )?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Is there a mirror at an accessible height ( <i>bottom of the mirror 44" above the floor</i> )?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Fire Alarms</u>	Are there flash fire alarm signals in the building, in the meeting/training room?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Signage</u>	Is there Braille text in the signage at the facility?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
